## Has the Fund met its objective?

During the year ended 30 April 2023, the Fund registered a return of -5.39%, outperforming the benchmark return of -9.67%. While equity market has been struggling in recent years, the Fund has delivered positive total return of 8.51% and outperforming the benchmark by 4.25% over the past three years. The Fund has met its mid and long-term capital appreciation objective. The 5-year total return, however, is negative in spite of a 10.96% outperformance against benchmark.

#### B. Performance Review (cont'd)

### 2. Performance of the Fund 5 years to 30 April 2023 (cont'd)

#### Has the Fund met its objective? (cont'd)

The domestic contributors to the Fund's performance during the year under review were:

a) Telcommunications and Media ("Telco"): Time dotCom performed well on the back of strong results delivery. Company also unlocked value by selling partial stake data centre at attractive valuation.

b) Real Estate Investment Trusts ("REITs"): Business recovered strongly after the relaxation of Covid policies. There will be valuation support, as bond yields is expected to stabilise as we move closer to end of rate hike cycle.

In the foreign segment, the biggest detractors are from Chinese stocks. The country's on-and-off Coronavirus Disease ("COVID") lockdowns have put on significant pressure on the economy and business profitability. On the bright side, these lockdowns have been ended from November 2022 and the Chinese economy is expected to gradually recover.

Benchmark	(9.67)	(4.53)	23.11	(11.83)	(8.26)

#### 3. Annual total return of the Fund

#### 4. Basis of calculation made in calculating the returns:

The performance figures are a comparison of the growth/ decline in NAV after taking into account all the distributions payable (if any) during the stipulated period.

An illustration of the above would be as follows:

Capital return	=	(NAV per unit end/ NAV per unit begin) - 1
Income return	=	Income distribution per unit / NAV per unit ex-date
Total return	=	(1+Capital return) x (1+Income return) - 1

#### Manager's report For the financial year ended 30 April 2023 (cont'd)

#### C. Market Review

The year 2022 was challenging for the market, with concerns including inflation, geopolitical risks, slowing economic growth, and uncertain earnings. The United States Federal Reserve ("US Fed") adopted a hawkish stance to combat inflation, raising the US Fed funds rate to 4.50% in December 2022.

United States ("US") equities saw a rebound in January 2023 due to favourable economic data and easing inflationary pressures. However, volatility increased in March 2023 due to higher interest rates, resulting in a brief banking crisis.

The Morgan Stanley Capital Index ("MSCI") Asia ex-Japan index saw growth due to China's reopening, but tensions between the US and China weakened sentiment in April 2023.

In Malaysia, the Kuala Lumpur Capital Index ("KLCI") edged higher due to optimism surrounding the economic reopening, and the dissolution of Parliament was announced to pave the way for the 15th general election. The new government implemented several policy measures, including a reduction in energy subsidies for high voltage users. Bank Negara Malaysia ("BNM") raised the Overnight Policy Rate ("OPR") in November 2022 and is expected to continue normalizing monetary policy in the future. Inflation in Malaysia eased in March 2023, but core Consumer Price Index ("CPI") remained sticky, and BNM's Annual Report 2022 was perceived as hawkish by bond investors.

#### D. Market Outlook and Strategy

Despite strong returns over recent months, global equity markets remain susceptible to shifting sentiment towards geopolitical tensions, inflation, economic growth and ultimately corporate earnings. Valuations have already significantly adjusted to reflect a change in the market environment, and we believe reflect realistic expectations for inflation, rates and risk premia. Consequently, the source of risk has now shifted from valuation to earnings in light of the softer growth and prospects for a recession, which appears increasingly likely. Broadly, economic data suggests that inflation pressure persists and economic data, though slowing, is not that bad as feared in the near term.

Within Asia, we continue to believe that China is expected to be a strong source of growth and returns for Asia. The Chinese equities as well as credit market took a breather in February 2023 after strong rally in the past months. Market sentiment was dampened by the re-intensifying geopolitical tensions between US-China. On the other hand, macro and economic front continued to deliver encouraging data. Consumption continued to recover in February 2023, stronger and at a faster pace than expected. Signs of the rebound were evident over the Chinese New Year holiday, and domestic tourism recorded the strongest visitor and revenue levels since the pandemic. Manufacturing activity also picked up. The supportive stance continued into 2023 and was recently validated by the 2 sessions that took place in early March 2023. The general positive tone on economic recovery and consumption stimulus remains, alongside with the announcement of the new cabinet and securing of President Xi's third term.

#### Manager's report For the financial year ended 30 April 2023 (cont'd)

#### D. Market Outlook and Strategy (cont'd)

Domestically, the KLCI was weak in 2022 affected by both macro and domestic factors. Inflation spike and US Fed tightening throughout the year led to severe market selldown. On top of that, political uncertainty ahead of election also kept investors on the sideline. The Fund was defensively positioned mainly into large cap with strong balance sheet. It was also underweight in Glove sector which performed badly amid heightened competition from Chinese players.

The foreign portion was focused on Quality Growth companies in 2022. However, our positions in China particularly Chinese Consumer Discretionary have been a significant detractor. Domestically, the Fund benefitted from bottom-up picks within the Telco (Time dotcom and Telekom Malaysia) and REIT (Sunway REIT and IGB REIT) sectors. The Fund also had minimal exposure to gloves which were the major detractors.

For domestic stocks, Telco, REITs and Food and Beverage ("F&B") contributed positively. In terms of overseas stocks, AIA and Resmed contributed positively. For domestic stocks, KLK and Press Metal were the large negative contributors while China Mengniu, JD.com and Shenzhou International dragged performance on the foreign side.

Given heightened market volatility, the Fund will hold higher cash levels to protect capital while looking for trading opportunities. The Manager is constantly on the lookout for bottom-up picks i.e. companies with solid management, strong balance sheets and resilient earnings/ cashflows at undemanding valuation. The Manager will maintain a barbell strategy, with exposure to both value and growth stocks.

In Malaysia, the Manager will continue to hold on to Financial Services (attractive dividend yield and strong asset quality) & REITs (stable and recurring dividends). The Manager is also adding position into Healthcare sector due to attractive valuation supported by improving earnings outlook.

Regionally, the Fund is overweight in China Consumer stocks that are expected to benefit from the country's recovery. Besides that, the Fund has also increased positions in Semiconductor sector that should benefit from a recovery in the second half of 2023.

#### E. Soft Commissions and Rebates

The Manager and its delegates will not retain any form of soft commissions and rebates from or otherwise share in any commission with any broker in consideration for directing dealings in the investments of the Fund unless the commission received is retained in the form of goods and services such as financial wire services and stock quotations system incidental to investment management of the Fund. All dealings with brokers are executed on best available terms.

#### Manager's report For the financial year ended 30 April 2023 (cont'd)

#### E. Soft Commissions and Rebates (cont'd)

During the financial year ended 30 April 2023, the Manager and its delegates did not receive any rebates from the brokers or dealers but have retained soft commissions in the form of goods and services such as research materials and advisory services that assist in decision making process relating to the investment of the Fund (i.e. research materials, data and quotation services, computer hardware and software incidental to the investment management of the Fund and investment advisory services) which were of demonstrable benefits to the unitholders. The soft commissions received were for the benefit of the Fund and there was no churning of trades.

#### F. Declaration on the soft commission/ rebates received from brokers/ dealers

The soft commissions received are in the form of Bloomberg annual subscriptions and terminals. These are retained by the company as it is of demonstrable benefit to unitholders of the Funds as per requirements by the Securities Commission ("SC") under clause 11.25 of the SC's Guidelines On Unit Trust Funds.

#### G. Securities Financing Transactions and Cross Trade Transactions

The Fund has not undertaken any securities lending or repurchase transaction ("securities financing transactions") in FY2023. No cross trade transactions have been carried out in FY2023.

For and on behalf of the Manager

Dr Hasnita Binti Dato' Hashim Chairman Ahmed Muzni Bin Mohamed Director

Kuala Lumpur, Malaysia 16 June 2023

## Independent auditors' report to the Unitholders of Maybank Malaysia Dividend Fund

#### Report on the audit of the financial statements

#### Opinion

We have audited the financial statements of Maybank Malaysia Dividend Fund (the "Fund"), which comprise the statement of financial position as at 30 April 2023 of the Fund, and statement of comprehensive income, statement of changes in net assets attributable to unitholders and statement of cash flows of the Fund for the year 30 April 2023 then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, as set out on pages 15 to 47.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the as at 30 April 2023, and of its financial performance and cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

#### Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the financial statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

## Information other than the financial statements and auditors' report thereon

The Manager is responsible for the other information. The other information comprises the information included in the annual report of the Fund, but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

## Independent auditors' report to the Unitholders of Maybank Malaysia Dividend Fund (cont'd)

#### Information other than the financial statements and auditors' report thereon (cont'd.)

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of the Manager and Trustee for the financial statements

The Manager is responsible for the preparation of financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Manager is also responsible for such internal control as the Manager determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Fund or to cease operations, or have no realistic alternative but to do so.

The Trustee is responsible for overseeing the Fund's financial reporting process. The Trustee is also responsible for ensuring that the Manager maintains proper accounting and other records as are necessary to enable true and fair presentation of these financial statements.

#### Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

## Independent auditors' report to the Unitholders of Maybank Malaysia Dividend Fund (cont'd)

#### Auditors' responsibilities for the audit of the financial statements (cont'd.)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## Independent auditors' report to the Unitholders of Maybank Malaysia Dividend Fund (cont'd)

Other matters

This report is made solely to the unitholders of the Fund, as a body, in accordance with the Guidelines on Unit Trust Funds issued by the Securities Commission Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 30 APRIL 2023

#### 1. THE FUND, THE MANAGER AND THEIR PRINCIPAL ACTIVITIES

Maybank Malaysia Dividend Fund (the "Fund") was constituted pursuant to the execution of a Deed dated 2 May 2006 between Amanah Mutual Berhad ("AMB") as the Manager and HSBC (Malaysia) Trustee Berhad as the Trustee and the Registered Holders of the Fund. The following supplemental Deeds have been issued between AMB and the Trustee:

- First supplemental deed dated 26 July 2016
- Second supplemental deed dated 4 September 2018

AMB, a company incorporated in Malaysia, is principally engaged in the management of unit trust funds. Amanah Saham Nasional Berhad ("ASNB") and Permodalan Nasional Berhad, companies incorporated in Malaysia, were the holding and ultimate holding company of the Manager until 16 May 2018.

Following the acquisition of AMB by Maybank Asset Management Sdn Bhd ("MAM"), the immediate and ultimate holding companies of the Manager has been changed to MAM and Malayan Banking Berhad ("MBB") respectively effective 17 May 2018.

MAM, the replacement Manager, and HSBC (Malaysia) Trustee Berhad as the Trustee had entered into a Third Supplemental Deed dated 11 July 2019. Subsequently, MAM and the trustee have entered into Fourth Supplemental Deed dated 5 August 2022. The Deed and Supplemental Deeds are subsequently referred to as 'Deeds'.

The Fund commenced operations on 6 June 2006 and will continue to be in operations until terminated by the Trustee as provided under the Deed. The principal activity of the Fund is to invest in a well-diversified equity portfolio which will focus on high dividend yielding Malaysian and Asian ex-Japan equities, as well as in such other markets where approval has been obtained from the authorities from time to time. The portfolio is an actively managed defensive equity fund that may also invest in fixed income securities as a tactical defensive measure depending on market conditions.

MAM is a company incorporated in Malaysia. It is a holder of the Capital Markets Services License ("CMSL") with fund management as its regulated activity under the Capital Market and Services Act 2007 ("CSMA"). The principal place of business of MAM is at Level 12, Tower C, Dataran Maybank, No.1 Jalan Maarof, 59000 Kuala Lumpur, Malaysia. MAM is a subsidiary of Maybank Asset Management Group Berhad ("MAMG"), which in turn is a subsidiary of MBB.

The financial statements were authorised for issue by the Board of Directors of the Manager (the "Directors") in accordance with a resolution of the Directors on 16 June 2023.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### 2.1 Basis of preparation

The financial statements of the Fund have been prepared in accordance with Malaysian Financial Reporting Standards ("MFRS") as issued by the Malaysian Accounting Standards Board ("MASB") and International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"), the Deeds and any regulatory requirements.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### 2.1 Basis of preparation (cont'd)

The Fund has adopted the MFRS, Amendments to Standards and Interpretation Committee ("IC") Interpretations which have become effective during the financial year ended 30 April 2023. The adoption of the above did not result in material impact to the financial statements.

The financial statements are prepared on a historical cost basis except as disclosed in the accounting policies in Note 2.3 to Note 2.14 to the financial statements.

The financial statements are presented in Ringgit Malaysia ("RM").

#### 2.2 Standards and amendments issued but not yet effective

The following are Standards and Amendments to Standards and Interpretations issued by the MASB, but not yet effective, up to the date of issuance of the Fund's financial statements. The Fund intends to adopt the relevant standards, if applicable, when they become effective.

Description	Effective for annual periods beginning on or after
MFRS 17: Insurance Contracts	1 January 2023
Amendments to MFRS 101: Classification of Liabilities as Current or Non-current	1 January 2023
Amendments to MFRS 101: Disclosure of Accounting Policies	1 January 2023
Amendments to MFRS 108: Definition of Accounting Estimates	1 January 2023
Amendments to MFRS 112: Deferred Tax Related to Assets and Liabilities arising	
from a Single Transaction	1 January 2023
Amendments to IFRS 16: Lease Liability in a Sale and Leaseback	1 January 2024
Amendments to MFRS 10 and MFRS 128: Sale or Contribution	
of Assets between an Investor and its Associate or Joint Venture	Deferred

The Fund expects that the adoption of the above standards and amendments to standards will not have any material impact on the financial statements in the period of initial application.

#### 2.3 Financial instruments

Financial assets and financial liabilities are recognised when the Fund becomes a party to the contractual provision of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets and financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### 2.4 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

All recognised financial assets are subsequently measured in their entirety at amortised cost or fair value, depending on the classification of the assets.

#### (i) Financial assets at amortised cost

Unless designated as at fair value through profit or loss ("FVTPL") on initial recognition, debt instruments that meet the following conditions are subsequently measured at amortised cost less impairment loss:

- the assets are held within a business model whose objectives is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and profit/ interest on the principal amount outstanding.

Debt instruments that do not meet the criteria above are classified as either fair value through other comprehensive income ("FVTOCI") or FVTPL.

The Fund classifies cash and cash equivalents, profit/ interest receivables, dividend receivables and amount due from Manager as financial assets at amortised cost. These assets are subsequently measured using the effective profit rate ("EPR")/ effective interest rate ("EIR") method and are subject to impairment. The EPR/ EIR is a method of calculating the amortised cost of the financial assets and of allocating and recognising the profit/ interest income in profit or loss over the relevant period.

#### (ii) Financial assets at FVTPL

Investments in equity instruments are classified as FVTPL, unless the Fund designates an investment that is not held for trading as FVTOCI on initial recognition.

A financial asset is recognised at FVTPL if:

- it has been acquired principally for the purpose of selling it in the near term;
- on initial recognition it is part of the portfolio of identified financial instruments that the Fund manages together and has evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

Debt instruments that do not meet the amortised cost or FVTOCI criteria are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria but are designated as at FVTPL are measured at FVTPL. A debt instrument may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### 2.4 Financial assets (cont'd)

#### (ii) Financial assets at FVTPL (cont'd)

Dividend income on investments in equity instruments at FVTPL is disclosed separately in the profit or loss.

Changes in the fair value of FVTPL investments are recognised in 'unrealised gain or loss on FVTPL investments' in profit or loss. Accumulated unrealised gains or losses are reclassified to 'realised gain or loss on FVTPL investments' in profit or loss when the associated assets are sold.

#### (iii) Impairment

Credit losses are recognised based on the Expected Credit Loss ("ECL") model. The Fund recognises loss allowances for ECL on financial instruments that are not measured at FVTPL. The impairment model does not apply to equity investments.

ECL is a probability-weighted estimate of credit losses. It is measured as follows:

- Financial assets that are not credit-impaired at the reporting date:
   As the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Fund expects to receive).
- Financial assets that are credit-impaired at the reporting date:
   As the difference between the gross carrying amount and the present value of estimated future cash flows.

At each reporting date, the Fund assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- Significant financial difficulty of the issuer or counterparty;
- Significant downgrade in credit rating of the instrument by a rating agency;
- A breach of contract such as a default or past due event; or
- The disappearance of an active market for a security because of financial difficulties.

For balances with short-term nature, full impairment will be recognised on uncollected balances after the grace period.

#### (iv) Derecognition

The Fund derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

If the Fund neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Fund recognises its retained profit/ interest in the asset and an associated liability for amounts it may have to pay. If the Fund retains substantially all the risks and rewards of ownership of a transferred financial asset, the Fund continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### 2.4 Financial assets (cont'd)

#### (iv) Derecognition (cont'd)

On derecognition of financial asset classified as FVTPL, the cumulative unrealised gain or loss previously recognised is transferred to realised gain or loss on disposal in profit or loss.

On derecognition of financial asset at amortised cost, gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

#### 2.5 Financial liabilities

#### (i) Classification

Financial liabilities are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability. The Fund classifies amount due to Trustee, amount due to Manager, amount due to brokers and other payables and accruals as other financial liabilities.

#### (ii) Recognition and measurement

Financial liabilities, are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument. The Fund's financial liabilities are recognised initially at fair value plus directly attributable transaction costs and subsequently measured at amortised cost using the EPR/ EIR method.

#### (iii) Derecognition

The Fund derecognises financial liabilities when, and only when, the Fund's obligations are discharged, cancelled or expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

#### 2.6 Unitholders' capital

The unitholders' contributions to the Fund meet the criteria to be classified as equity instruments under MFRS 132 "*Financial Instruments: Presentation*". Those criteria include:

- (i) the units entitle the holder to a proportionate share of the Fund's NAV;
- (ii) the units are the most subordinated class and class features are identical;
- (iii) there is no contractual obligations to deliver cash or another financial asset other than the obligation on the Fund to repurchase; and
- (iv) the total expected cash flows from the units over its life are based substantially on the profit or loss of the Fund.

The outstanding units are carried at the redemption amount that is payable at each financial year if unitholder exercises the right to put the unit back to the Fund. Units are created and cancelled at prices based on the Fund's NAV per unit at the time of creation or cancellation. The Fund's NAV per unit is calculated by dividing the net assets attributable to unitholders with the total number of outstanding units.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### 2.6 Unitholders' capital (cont'd)

Distribution equalisation represents the average distributable amount included in the creation and cancellation prices of units. The amount is either refunded to unitholders by way of distribution and/ or adjusted accordingly when units are cancelled.

#### 2.7 Revenue/ Income

Revenue is measured at the fair value of consideration received or receivable.

Dividend income is recognised when the right to receive payment is established. Dividend income is presented gross of any non-recoverable withholding taxes, which are disclosed separately in the statement of comprehensive income.

Profit/ Interest income from short-term deposits is recognised on the accruals basis using the EPR/ EIR method.

Realised gain or loss on disposal of investments is measured as the difference between the net proceeds and its carrying amount.

Other revenue/ income is generally recognised when the Fund satisfies a performance obligation by transferring a promised good or service or an asset to a customer. An asset is transferred when (or as) the customer obtains control of that asset.

#### 2.8 Cash and cash equivalents

Cash and cash equivalents include cash at bank and deposit with a licensed financial institution with maturities of 3 months or less, which have an insignificant risk of changes in value.

#### 2.9 Distributions

Any distribution to the Fund's unitholders is accounted for in profit and loss as a deduction from realised reserves. A proposed distribution is recognised as a liability in the period in which it is approved. Distribution is either reinvested or paid in cash to the unitholders on the income payment date. Reinvestment of units is based on the NAV per unit on the income payment date, which is also the time of creation.

#### 2.10 Taxation

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date.

Current taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax expense is determined according to Malaysian tax laws at the current rate based upon the taxable income earned during the financial year. Tax on dividend income from foreign quoted securities is based on the tax regime of the respective countries that the Fund invests in.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### 2.10 Taxation (cont'd)

No deferred tax is recognised as there are no material temporary differences have been identified.

In some jurisdictions, investment income is subject to withholding tax deducted at the source of the income. Withholding tax is a generic term used for the amount of withholding tax deducted at the source of the income and is not significant for the Fund. The Fund presents the withholding tax separately from the gross investment income in the statement of comprehensive income.

#### 2.11 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to by the Fund.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

All assets for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

- Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting date.

For the purpose of fair value disclosures, the Fund has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### 2.12 Functional and foreign currency

#### (i) Functional and presentation currency

The financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates ("the functional currency"). The financial statements are presented in Ringgit Malaysia ("RM"), which is also the Fund's functional currency.

The financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates ("the functional currency"). The financial statements are presented in Ringgit Malaysia ("RM"), which is also the Fund's functional currency.

#### (ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of transactions or valuations where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at financial year end exchange rates of monetary assets and liabilities in foreign currencies are recognised in the statement of comprehensive income, except when deferred in other comprehensive income as qualifying cash flow hedges.

#### 2.13 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting used by the chief operating decision-maker. The chief operating decision-maker is responsible for allocating resources and assessing performance of the operating segments.

#### 2.14 Significant accounting estimates and judgements

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

No major judgement have been made by the Manager in applying the Fund's accounting policies. There are no key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities.

#### 3. NET GAIN ON FOREIGN EXCHANGE

	2023 RM	2022 RM
Net unrealised gain on foreign exchange	95,636	519,267
Net realised gain on foreign exchange	42,936	551,349
	138,572	1,070,616

#### 4. MANAGER'S FEE

The Manager's fee is computed daily based on 1.50% (2022: 1.50%) per annum ("p.a.") of the NAV of the Fund, before deducting Manager's fee and Trustee's fee for the day.

#### 5. TRUSTEE'S FEE

If the Fund is invested locally only, the Trustee's fee is computed based on 0.07% (2022: 0.07%) p.a. (including local custodian fee) of the NAV of the Fund, before deducting Manager's fee and Trustee's fee for the day, calculated on a daily basis, subject to a minimum fee of RM18,000 p.a.

If the Fund is invested locally and abroad, the Trustee's fee is computed based on 0.07% (2022: 0.07%) p.a. (including local custodian fee) of the local NAV of the Fund and 0.07% (2022: 0.07%) p.a. (excluding foreign custodian fee) of the foreign NAV of the Fund, before deducting Manager's fee and Trustee's fee for the day, calculated on a daily basis, subject to a minimum fee of RM18,000 p.a.

6.	TAXATION	2023 RM	2022 RM
	Current income tax expense		
	- Local	22,660	30,155
	- Foreign	84,015	48,214
		106,675	78,369
	- Local	84,015	48,21

Income tax is calculated at the Malaysian statutory tax rate of 24% (2022: 24%) of the estimated assessable income for the financial year.

The tax charge for the financial year is in relation to the taxable income earned by the Fund after deducting tax allowable expenses. In accordance with Schedule 6 of the Income Tax Act 1967, dividend income and profit/ interest income earned by the Fund is exempted from tax. With effect from 1 January 2022, the current income tax exemption on foreign-sourced income ("FSI") received in Malaysia by Malaysian residents has been removed.

Income derived from sources outside Malaysia may be subject to tax in the country from which it is derived. Tax on dividend income from foreign quoted equities is based on the tax regime of the respective countries that the Fund invests in.

A reconciliation of income tax expense applicable to net results before tax at the statutory income tax rate to income tax expense at the effective income tax rate is as follows:

	2023 RM	2022 RM
Net loss before taxation	(5,418,469)	(5,617,922)
Taxation at Malaysian statutory rate of 24% (2022: 24%) Income not subject to tax Loss not deductible for tax purposes Expenses not deductible for tax purposes	(1,300,433) (766,384) 1,626,489 471,219	(1,348,301) (2,007,873) 2,750,772 605,402

## 15. SIGNIFICANT RELATED PARTY TRANSACTION AND BALANCES

For the purpose of these financial statements, parties are considered to be related to the Fund or the Manager if the Fund or the Manager has the ability directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decision, or vice versa, or where the Fund or the Manager and the party are subject to common control or common significant influence. Related parties maybe individuals or other entities.

In addition to the related party information disclosed elsewhere in the financial statements, there are no other significant related party transactions and balances of the Fund during the financial year.

(i) <u>Sic</u>	gnificant related party transactions	2023 RM	2022 RM
Pro	<u>BB:</u> ofit/ Interest income from deposit vidend income from investment in quoted equity	17,542 215,102	521,582
	B ofit income from deposit gnificant related party balances	30,163	
ME	<u>BB:</u> vestment in quoted equity	3,513,068	4,540,261

The Manager is of the opinion that the transactions with the related parties have been entered into in the normal course of business and have been established on terms and conditions that are not materially different from that obtainable with unrelated parties.

## 16. TOTAL EXPENSE RATIO ("TER")

The TER of the Fund is the ratio of the sum of fees and expenses incurred by the Fund to the average NAV of the Fund calculated on a daily basis. The fees and expenses include Manager's fee, Trustee's fee, auditors' remuneration, tax agent's fee and other administrative expenses. For the financial year ended 30 April 2023, the TER of the Fund stood at 1.63% (2022: 1.62%).

# 17. PORTFOLIO TURNOVER RATIO ("PTR")

The PTR of the Fund is the ratio of average acquisitions and disposals of the Fund for the financial year to the average NAV of the Fund calculated on a daily basis. For the financial year ended 30 April 2023, the PTR of the Fund stood at 0.80 times (2022: 0.78 times).

## 18. SEGMENT REPORTING

The Portfolio Management Committee (the "PMC") of the Manager, being the chief operating decisionmaker, makes the strategic decisions on resources allocation of the Fund. The decisions are based on an integrated investment strategy to ensure the Fund achieves its targeted return with an acceptable level of risk within the portfolio.

The PMC is responsible for the performance of the Fund by investing between 70% to 99.80% of the Fund's NAV in high dividend yielding stocks both in Malaysia and in Asia ex-Japan markets, a maximum of 20% of the Fund's NAV in listed real estate investment trusts and between 0.20% to 30% of the Fund's NAV in fixed income securities and cash.

On this basis, the PMC considers the business of the Fund to have a single operating segment located in Malaysia. Asset allocation decisions are based on a single, integrated investments strategy and the Fund's performance is evaluated on an overall basis.

The internal reporting of the Fund's assets, liabilities and performance is prepared on a consistent basis with the measurement and recognition principles of MFRS and IFRS.

There were no changes in the reportable operating segments during the financial year.

## **19. FINANCIAL INSTRUMENTS**

## (a) Classification of financial instruments

The Fund's financial assets and financial liabilities were measured on an ongoing basis at either fair value or at amortised cost based on their respective classifications. The significant accounting policies in Note 2.3 to Note 2.14 to the financial statements describe how the classes of financial instruments are measured and how income and expenses are recognised.

## (b) Financial instruments that are carried at fair value

The Fund's financial assets at FVTPL are carried at fair value.

## Quoted equities

Fair value is determined by reference to their published price at the reporting date. For equities quoted on Bursa Malaysia, the market prices are determined by reference to the theoretical closing market price as published by Bursa Malaysia. For equities quoted other than Bursa Malaysia, the market prices are determined by reference to the theoretical closing market price as quoted by the respective foreign stock exchanges of the respective countries.

# (c) Financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximations of fair value

Other than its securities, the Fund's financial instruments are not carried at fair value but their carrying amounts are reasonable approximations of fair value due to their short term nature. There were no financial instruments which are not carried at fair value and whose carrying amounts are not reasonable approximations of their respective fair values.

## **19. FINANCIAL INSTRUMENTS (CONT'D)**

## (d) Fair value hierarchy

The Fund uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. prices) or indirectly (i.e. derived from prices).
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

# 20. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

## (a) Introduction

The Fund's objective in managing risk is the creation and protection of unitholders' value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring of risks. Financial risk management is also carried out through sound internal control systems and adherence to the investment restrictions as stipulated in the Deeds, the Securities Commission's Guidelines on Unit Trust Funds and the CMSA.

## (b) Market risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rates, foreign exchange rates and equity prices. The Fund is exposed to foreign currency risk arising from the Fund's investments in quoted equities denominated in foreign currencies, and other financial assets and liabilities denominated in foreign currencies. The Fund is also exposed to profit/ interest rate risk arising from its deposit placed with a licensed financial institution.

## (i) Foreign exchange risk

Foreign exchange risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. As at 30 April 2023, besides RM, the Fund also invested in equities denominated in Australian Dollar ("AUD"), Chinese Yuan ("CNY") Hong Kong Dollar ("HKD"), Indian Rupee ("INR"), Indonesian Rupiah ("IDR"), Korean Won ("KRW"), Singapore Dollar ("SGD"), United States Dollar ("USD"), Thailang Baht ("THB") and Taiwan Dollar ("TWD").

However, The Fund's exposures to fluctuations in Chinese Yuan ("CNY") and Thailand Baht ("THB") exchange rates are not significant for the financial year ended 30 April 2023.

## 20. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D)

## (b) Market risk (cont'd)

## (i) Foreign exchange risk (cont'd)

The table below analyses the net position of the Fund's financial assets and financial liability which are exposed to foreign exchange risks as at the reporting date. As the Fund's functional currency is RM, the financial assets and financial liability denominated in other currencies are exposed to the movement of foreign exchange rates. The exposure might lead to the appreciation or depreciation of the financial assets and financial liability of the Fund that may affect the value of the NAV attributable to unitholders.

## (b) Market risk (cont'd)

#### (iii) Price risk

Price risk is the risk of unfavourable changes in the fair values of investments as the result of changes in the levels of equity indices and the value of individual shares. The price risk exposure arises from the Fund's investments in quoted equities.

#### Price risk sensitivity

Management's best estimate of the effect on the income for the year due to a reasonably possible change in price, with all other variables held constant is indicated in the table below:

	202	3	202	2
	Changes in price %	Effects on NAV Increase/ (decrease) RM	Changes in price %	Effects on NAV Increase/ (decrease) RM
Financial assets at FVTPL	+5% -5%	3,861,039 (3,861,039)	+5% -5%	4,871,980 (4,871,980)

The impact to net loss after tax is expected to be the same as the effects on NAV.

## Price risk concentration

The Fund's exposure to price risk based on its portfolio of investments as at the reporting date is disclosed in Note 7 to the financial statements.

## (c) Credit risk

Credit risk is the risk that the issuer/ counterparty to a financial instrument will cause a financial loss for the Fund by failing to discharge an obligation. The Fund is exposed to the risk of credit-related losses that can occur as a result of an issuer/ counterparty's inability or unwillingness to honour its contractual obligations to make timely repayments of profit/ interest, principal and proceeds from realisation of investments. These credit exposures exist within financing relationships, and other transactions.

The Manager manages the Fund's credit risk by undertaking credit evaluation and close monitoring of any changes to the issuer/ counterparty's credit profile to minimise such risk. It is the Fund's policy to enter into financial instruments with reputable counterparties. The Manager also closely monitors the creditworthiness of the Fund's counterparties (e.g. brokers, custodian, banks, etc.) by reviewing their credit ratings and credit profile on a regular basis.

#### 20. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D)

#### (c) Credit risk (cont'd)

#### (i) Credit risk exposure

At the reporting date, the Fund's maximum exposure to credit risk is represented by the carrying amount of each class of financial assets recognised in the statement of financial position. None of the Fund's financial assets were past due or impaired as at the reporting date.

#### (ii) Credit quality of financial assets

Besides investing in quoted equities within Malaysia and in Asia ex-Japan markets, the Manager also eligible to invest in Malaysian fixed income securities and liquid assets. The fixed income securities must have a minimum credit rating of AA3/ P1 by RAM or equivalent rating by other rating agencies.

#### (iii) Credit risk concentration

The following table analyses the Fund's deposits with licensed financial institutions, cash at bank and profit/ interest receivables from deposits with licensed financial institutions by rating categories. The rating is obtained from RAM Holdings Berhad's official website.

## (d) Liquidity risk

Liquidity risk is defined as the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Exposure to liquidity risk arises because of the possibility that the Fund could be required to pay its liabilities or redeem its units earlier than expected.

The Fund is exposed to cash redemptions of its units on a regular basis. Units sold to unitholders by the Manager are redeemable at the unitholders' option based on the Fund's NAV per unit at the time of redemption calculated in accordance with the Fund's Deeds.

It is the Fund's policy that the Manager monitors the Fund's liquidity position on a daily basis. The Fund also manages its obligation to redeem units when required to do so.

The Manager's policy is to always maintain a prudent and sufficient level of liquid assets so as to meet normal operating requirements and expected redemption requests by unitholders. Liquid assets comprise cash, deposits with financial institutions and other instruments which are capable of being converted into cash within 10 days.

## 20. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D)

## (d) Liquidity risk (cont'd)

#### Notes:

## (i) Financial assets

Analysis of financial assets at FVTPL and deposits into maturity groupings is based on the expected date on which these assets will be realised. The Fund's equity investments have been included in the "less than 1 month" category on the assumption that these are highly liquid investments which can be realised should all of the Fund's unitholders' capital be required to be redeemed. The other assets shall not comprise of tax recoverable in view that it is not a financial asset. For other assets, the analysis into maturity groupings is based on the remaining period from the end of the reporting period to the contractual maturity date or if earlier, the expected date on which the assets will be realised.

Financial assets exclude tax-related matters such as tax recoverable.

## (ii) Financial liabilities

The maturity grouping is based on the remaining period from the end of the reporting period to the contractual maturity date. When a counterparty has a choice of when the amount is paid, the liability is allocated to the earliest period in which the Fund can be required to pay.

Financial liabilities exclude tax-related matters such as tax payable.

## (iii) Unitholders' capital

The unitholders can request for redemption on their units by giving the Manager a 10 days notice period, the unitholders' capital have been categorised as having a maturity of "less than 1 month".

As a result, it appears that the Fund has a liquidity gap within "less than 1 month". However, the Fund believes that it would be able to liquidate its investments should the need arise to satisfy all the redemption requirements.

## 21. CAPITAL MANAGEMENT

The capital of the Fund can vary depending on the demand for redemptions and subscriptions to the

The Fund's objectives for managing capital are:

- (a) To invest in investments meeting the description, risk exposure and expected returns indicated in its prospectus;
- (b) To achieve consistent returns while safeguarding capital by using various investment strategies;
- (c) To maintain sufficient liquidity to meet the expenses of the Fund, and to meet redemption requests as they arise; and
- (d) To maintain sufficient fund size and to ensure that the operations of the Fund are cost-efficient.

No changes were made to the capital management objectives during the current financial year.
