The information on the investment policy and strategy is hereby deleted in its entirety and replaced with the following:

The Fund invests, directly or indirectly, in global Shariah-compliant equities (including Shariah-compliant American Depositary Receipts and Shariah-compliant Global Depositary Receipts), global Shariah-compliant equity related securities (including Shariah-compliant warrants), global fixed and floating rate sukuk issued by governments, government agencies, supra-nationals and companies, Islamic money market instruments and Islamic deposits.

The Fund may also invest in Islamic collective investment schemes, including but are not limited to, Islamic Real Estate Investment Trusts (“REITs”) and Islamic exchange-traded-funds (“ETFs”) which may be based on commodities such as gold. In addition, the Islamic collective investment schemes which the Fund may invest in may have investment in derivatives which are limited for hedging purposes only.

The Fund will invest in markets where the regulatory authorities are ordinary or associate members of the International Organization of Securities Commissions (“IOSCO”).

The minimum credit rating for sukuk to be invested by the Fund will be B3 by Moody’s or equivalent ratings by other international/global rating agencies for sukuk issued by sovereign government, province, supranational or government agency and Baa3 by Moody’s or equivalent ratings by other international/global rating agencies for sukuk issued by companies. If the sukuk is rated by more than 1 rating agency, the lower rating will be used to determine the eligibility of the sukuk. In the event of a credit downgrade of the sukuk to below the stipulated minimum credit rating, we will endeavour to take the necessary steps to dispose of that sukuk. However, in order to best protect the interests of the Unit Holders, we have the discretion to take into consideration all relevant factors that affect the value of the investment before deciding on the manner and time frame of its liquidation.

The Fund may also invest up to 20% of its NAV in unrated sukuk issued by a government or an entity wholly owned or explicitly guaranteed by a government provided the issuer satisfy the minimum credit rating of B3 by Moody’s or equivalent ratings by other international/global rating agencies, and in unrated sukuk issued by subsidiaries or special purpose vehicles (“SPV”) of Malaysian government linked corporations provided the issuer satisfy the minimum credit rating of Baa3 by Moody’s or equivalent ratings by other international/global rating agencies. The Fund’s investment in sub-investment

This Third Supplementary Prospectus is dated 22 February 2021 and must be read together with the Prospectus dated 17 June 2019, the First Supplementary Prospectus dated 15 June 2020 and the Second Supplementary Prospectus dated 17 September 2020.

grade sukuk (sukuk rated below Baa3 and unrated sukuk issued or guaranteed by governments rated below Baa3) must not exceed 20% of the Fund's NAV.

The External Investment Manager and/or Investment Adviser seek to adopt a dynamic asset allocation approach, which involves adjusting the Fund's portfolio allocation to various asset classes according to prevailing market conditions.

Equity

In addition to being Shariah-compliant, the equities portfolio is constructed with a focus on stock selection, particularly in companies which the External Investment Manager and/or Investment Adviser has a high conviction that the current share price does not reflect the future prospects for that business. The External Investment Manager and/or Investment Adviser seek to identify companies which they believe will deliver future earnings growth above the level expected by the market typically on a 3 - 5 years horizon (we term this as 'a positive growth gap'). The equity investments are also managed with reference to material environmental, social and governance factors. This means issues such as climate change, environmental performance, labour standards or board composition that could impact a company's value may be considered in the assessment of companies.

Sukuk

The Fund invests in global sukuk approved by the Shariah Adviser and having diversified exposure to risk factors such as duration strategy, interest rates movements, region/country, sector/industrial exposures relative to the benchmark.

The Fund will use Islamic derivatives such as currency forwards for hedging purposes to manage the currency risk of the Classes not denominated in USD.

Variation to Schedule C of the Guidelines on valuation of other unlisted sukuk

The valuation basis for other unlisted sukuk in Schedule C of the Guidelines is as follows:

"Fair value by reference to the average indicative yield quoted by three independent and reputable institutions."

On 28 May 2020, we have been granted a variation to the aforesaid valuation for investments of the Fund in non-RM unlisted sukuk where we are allowed to value such investments based on the price quoted by Bloomberg Generic Price subject to the following conditions:

- (a) we continuously keep abreast of the development in Bloomberg Generic Price ("Bloomberg")'s pricing methodology; and

(b) we keep track on acceptability of Bloomberg's prices in the market place.

8. Amendment to Section 5.1 - Bases of Valuation of Investments in "Chapter 5 - Transaction Information" on page 22 of the Prospectus

The information on unlisted sukuk is hereby deleted in its entirety and replaced with the following:

Unlisted Sukuk

Investments in unlisted RM-denominated sukuk will be valued based on price quoted by a bond pricing agency ("BPA") registered with the SC. Where we are of the view that the price quoted by BPA for a specific sukuk differs from the "market price" by more than 20 basis points, we may use the "market price" provided that we comply with the requirements of the Guidelines.

Investments in other unlisted sukuk will be valued using the Bloomberg Generic Price ("BGN"). In the case where we are unable to obtain quotation from the BGN, such unlisted sukuk will be valued at fair value by reference to the average indicative yield quoted by 3 independent and reputable institutions. If the BGN is not available and we are unable to obtain quotation from 3 independent and reputable institutions, such unlisted sukuk will be valued at fair value as determined in good faith by us, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

9. Amendment to Section 5.10 - Switching in "Chapter 5 - Transaction Information" on pages 27 - 28 of the Prospectus

The information on switching is hereby deleted in its entirety and replaced with the following:

You are permitted to switch from and to other funds managed by us provided that both funds are denominated in the same currency. Switching will be made at the prevailing NAV per unit of the fund to be switched from on a Business Day when the switching request is received and accepted by us, subject to the availability and any terms and conditions imposed by the intended fund to be switched to, if any.

There is no restriction on the frequency of switching. However, you must meet the minimum Units for redemption and the minimum Unit holdings (after the switch) of the Class that you intend to switch from unless you are redeeming all your investments from the Class.

Switching is treated as a withdrawal from 1 fund and an investment into another fund. If you switch from a fund with a lower sales charge to a fund with a higher sales charge, you need to pay the difference in sales charge between the sales charge of these 2 funds in addition to the switching fee. If you switch from a fund with higher sales charge to a fund with a lower sales charge, you do not need to pay the difference in sales charge between these funds.

For example:-

This Third Supplementary Prospectus is dated 22 February 2021 and must be read together with the Prospectus dated 17 June 2019, the First Supplementary Prospectus dated 15 June 2020 and the Second Supplementary Prospectus dated 17 September 2020.

Scenario 1

Scenario 2

If you invest in a fund with a sales charge of 1.00% on the net asset value per unit and now wish to switch to another fund which has no sales charge, you will not be charged any sales charge.

Any switching request made **on or before the cut-off time of 4.00 p.m.** will be made at the NAV per unit of the fund to be switched from when the switching request is received and accepted by us on a Business Day, subject to availability and any terms and conditions imposed by the intended fund, if any.

Any switching request received or deemed to have been received after this cut-off time would be considered as being transacted on the following Business Day.

We reserve the rights to vary the terms and conditions for switching from time to time, which shall be communicated to you in writing.

Switching from an Islamic fund to a conventional fund is discouraged especially for Muslim Unit Holders.

Note: Our distributors may have an earlier cut-off time for receiving applications in respect of any switching of Units. Please check with the respective distributors for their respective cut-off time.

10. Amendment to Section 5.11 - Dealing Cut-Off Time for Investment and Redemption of Units in “Chapter 5 - Transaction Information” on page 28 of the Prospectus

Any application received before the cut-off time on a Business Day will be processed on the same Business Day based on the Forward Pricing of the Fund.

Any application received after the cut-off time on a Business Day will be treated as having been received on the next Business Day and will be processed on the next Business Day based on the next Forward Pricing of the Fund.

4. Amendment to Currency Risk in “Chapter 3 - Fund Information” on pages 9 to 10 of the Prospectus

The information on currency risk under the heading “Specific Risks of the Fund” is hereby deleted in its entirety and replaced with the following:

Currency Risk

As the base currency of the Fund is denominated in USD and the currency denomination of the Classes may be denominated in other than USD, the Classes not denominated in USD are exposed to currency risk. Any fluctuation in the exchange rates between USD and the currency denomination of the Class (other than USD Class, USD (Institutional) Class and USD (Institutional) (Distribution) Class) will affect the Unit Holder’s investments in those Classes (other than USD Class, USD (Institutional) Class and USD (Institutional) (Distribution) Class). The impact of the exchange rate movement between the base currency of the Fund and the currency denomination of the Class (other than USD Class, USD (Institutional) Class and USD (Institutional) (Distribution) Class) may result in a depreciation of the Unit Holder’s holdings as expressed in the base currency of the Fund.

In order to manage currency risk, we may employ currency hedging strategies to fully or partially hedge the foreign currency exposure of the Class not denominated in USD. However, every hedge comes with a cost and will be borne by the respective Class.

Currency hedging may reduce the effect of the exchange rate movement for the Class being hedged (other than USD Class, USD (Institutional) Class and USD (Institutional) (Distribution) Class) but it does not entirely eliminate currency risk between the Class and the base currency of the Fund. The unhedged portion of the Class will still be affected by the exchange rate movements and it may cause fluctuation of NAV of the Class. You should note that if the exchange rate moves favourably, the Class (other than USD Class, USD (Institutional) Class and USD (Institutional) (Distribution) Class) will not benefit from any upside in currency movement due to the hedging strategy. In addition, hedging is subject to a minimum size of entering into a hedging contract and the cost of hedging may affect returns of the hedged class.

5. Amendment to Mode of Distribution in “Chapter 3 - Fund Information” on page 11 of the Prospectus

The information on the mode of distribution is hereby deleted in its entirety and replaced with the following:

You may elect to either receive income payment via cash payment mode or reinvestment mode. If you did not elect the mode of distribution, all income distribution will be automatically reinvested into additional Units in the Fund.

Unit Holders who elect to receive income payment via cash payment mode may receive the income payment by way of direct debit into the Unit Holders’ bank account on the income payment date (which is within 10 calendar days from the ex-distribution date). However, for the USD (Institutional)(Distribution) Class, the mode of distribution available is via cash payment only.

This Second Supplementary Prospectus is dated 17 September 2020 and must be read together with the Prospectus dated 17 June 2019 and the First Supplementary Prospectus dated 15 June 2020.

6. Amendment to Chapter 4 - Fees, Charges and Expenses” on page 18 of the Prospectus

The first paragraph of this chapter is hereby deleted in its entirety and replaced with the following:

Due to multiple Classes in this Fund, the indirect fees and/or charges for the Fund are apportioned based on the size of the Class relative to the whole Fund. This means that the multi-class ratio (“MCR”) is calculated by taking the “value of a Class” for a particular day and dividing it with the “value of the Fund” for that same day. As an illustration, assuming there is an indirect fee chargeable to the Fund of USD 100 and the size of MYR Class, MYR (Hedged) Class, USD Class, AUD (Hedged) Class, SGD (Hedged) Class, USD (Institutional) Class and USD (Institutional) (Distribution) Class over the size of the Fund is 50%, 20%, 10%, 5% , 5%, 5% and 5% respectively, the ratio of the apportionment based on the percentage will be 50:20:10:5:5:5:5, 50% being borne by MYR Class, 20% being borne by MYR (Hedged) Class, 10% being borne by USD Class, 5% being borne by AUD (Hedged) Class, 5% being borne by SGD (Hedged) Class, 5% being borne by USD (Institutional) Class and 5% being borne by USD (Institutional) (Distribution) Class.

7. Amendment to section 4.1 - Sales Charge in “Chapter 4 - Fees, Charges and Expenses” on page 18 of the Prospectus

The information on the sales charge is hereby deleted in its entirety and replaced with the following:

[^]Multi-class ratio is apportioned based on the size of the Class relative to the whole Fund. This means the multi-class ratio is calculated by taking the value of a Class for a particular day and dividing it with the value of the Fund for that same day. This apportionment is expressed as a ratio and calculated as a percentage.

The NAV per Unit of a Class is calculated by dividing the NAV of the Fund attributable to the Class by the number of Units in circulation of that Class at the end of each Business Day.

Assuming there are 245,000,000 Units of the Fund in circulation at the point of valuation, the NAV per Unit of a Class shall therefore be calculated as follows:

	Fund (USD)	MYR Class (USD)	MYR (Hedged) Class (USD)	USD Class (USD)	AUD (Hedged) Class (USD)	SGD (Hedged) Class (USD)	USD (Institutional) Class (USD)	USD (Institutional) (Distribution) Class (USD)

14. Amendment to Currency Risk in “Chapter 3 - Fund Information” on pages 9 to 10 of the Prospectus

The information on currency risk under the heading “Specific Risks of the Fund” is hereby deleted in its entirety and replaced with the following:

Currency Risk

As the base currency of the Fund is denominated in USD and the currency denomination of the Classes may be denominated in other than USD, the Classes not denominated in USD are exposed to currency risk. Any fluctuation in the exchange rates between USD and the currency denomination of the Class (other than USD Class and USD (Institutional) Class) will affect the Unit Holder’s investments in those Classes (other than USD Class and USD (Institutional) Class). The impact of the exchange rate movement between the base currency of the Fund and the currency denomination of the Class (other than USD Class and USD (Institutional) Class) may result in a depreciation of the Unit Holder’s holdings as expressed in the base currency of the Fund.

In order to manage currency risk, we may employ currency hedging strategies to fully or partially hedge the foreign currency exposure of the Class not denominated in USD. However, every hedge comes with a cost and will be borne by the respective Class.

Currency hedging may reduce the effect of the exchange rate movement for the Class being hedged (other than USD Class and USD (Institutional) Class) but it does not entirely eliminate currency risk between the Class and the base currency of the Fund. The unhedged portion of the Class will still be affected by the exchange rate movements and it may cause fluctuation of NAV of the Class. You should note that if the exchange rate moves favourably, the Class (other than USD Class and USD (Institutional) Class) will not benefit from any upside in currency movement due to the hedging strategy. In addition, hedging is subject to a minimum size of entering into a hedging contract and the cost of hedging may affect returns of the hedged class.

This First Supplementary Prospectus is dated 15 June 2020 and must be read together with the Prospectus dated 17 June 2019.

15. Amendment to Chapter 4 - Fees, Charges and Expenses” on page 18 of the Prospectus

The first paragraph of this chapter is hereby deleted in its entirety and replaced with the following:

Due to multiple Classes in this Fund, the indirect fees and/or charges for the Fund are apportioned based on the size of the Class relative to the whole Fund. This means that the multi-class ratio (“MCR”) is calculated by taking the “value of a Class” for a particular day and dividing it with the “value of the Fund” for that same day. As an illustration, assuming there is an indirect fee chargeable to the Fund of USD 100 and the size of MYR Class, MYR (Hedged) Class, USD Class, AUD (Hedged) Class, SGD (Hedged) Class and USD (Institutional) Class over the size of the Fund is 50%, 20%, 10%, 10% , 5% and 5% respectively, the ratio of the apportionment based on the percentage will be 50:20:10:10:5:5, 50% being borne by MYR Class, 20% being borne by MYR (Hedged) Class, 10% being borne by USD Class, 10% being borne by AUD (Hedged) Class, 5% being borne by SGD (Hedged) Class and 5% being borne by USD (Institutional) Class.

[^]Multi-class ratio is apportioned based on the size of the Class relative to the whole Fund. This means the multi-class ratio is calculated by taking the value of a Class for a particular day and dividing it with the value of the Fund for that same day. This apportionment is expressed as a ratio and calculated as a percentage.

The NAV per Unit of a Class is calculated by dividing the NAV of the Fund attributable to the Class by the number of Units in circulation of that Class at the end of each Business Day.

Assuming there are 245,000,000 Units of the Fund in circulation at the point of valuation, the NAV per Unit of a Class shall therefore be calculated as follows:

	Fund (USD)	MYR Class (USD)	MYR (Hedged) Class (USD)	USD Class (USD)	AUD (Hedged) Class (USD)	SGD (Hedged) Class (USD)	USD (Institutional) Class (USD)
NAV	101,595,045.26	50,797,432.16	20,318,972.87	10,159,486.43	10,159,486.43	5,079,743.22	5,079,924.15
Divide: Units in circulation	246,000,000	150,000,000	60,000,000	10,000,000	15,000,000	6,000,000	5,000,000

This First Supplementary Prospectus is dated 15 June 2020 and must be read together with the Prospectus dated 17 June 2019.

NAV per Unit of the Class (USD)	USD 0.33865	USD0.33865	USD1.01595	USD0.67730	USD0.84662	USD1.01598

Conversion to AUD (at USD1: AUD1.60 exchange rate)				AUD1.0837		
Conversion to SGD (at USD1: SGD1.40 exchange rate)					SGD1.1853	

The NAV per Unit of each Class will be rounded up to 4 decimal places for the purposes of publication of the NAV per Unit.

Calculation of Selling Price
Illustration - Sale of Units

Example:

If you wish to invest RM10,000.00 in MYR Class before 4.00 p.m. on 1 April 2020, and if the sales charge is 5.00% of the NAV per Unit, the total amount to be paid by you and the number of Units issued to you will be as follows:

$$\begin{aligned}
 \text{Sales charge incurred} &= \frac{\text{Investment Amount}}{1 + \text{sales charge (\%)}} \times \text{sales charge (\%)} \\
 &= \frac{\text{RM10,000}}{1 + 5.00\%} \times 5.00\% \\
 &= \text{RM476.19}
 \end{aligned}$$

$$\begin{aligned}
 \text{Net investment amount} &= \text{Investment Amount} - \text{sales charge} \\
 &= \text{RM10,000} - \text{RM476.19} \\
 &= \text{RM9,523.81}
 \end{aligned}$$

$$\begin{aligned}
 \text{Units credited to investor} &= \text{Net investment amount} / \text{NAV per Unit} \\
 &= \text{RM9,523.81} / \text{RM1.000} \\
 &= 9,523.81 \text{ Units}

RISK FACTORS

FUND	Maybank Global Mixed Assets-I Fund
General Risks of Investing in the Fund	<p><u>Market Risk</u> Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the Fund's NAV. We will monitor the financial markets closely and act on any adverse news accordingly.</p> <p><u>Inflation Risk</u> This is the risk that investors' investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased.</p> <p><u>Liquidity Risk</u> Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavourable prices.</p> <p><u>Financing Risk</u> This risk occurs when investors take a financing to finance their investment. The inherent risk of investing with financed money includes investors being unable to service the financing repayments. In the event units are used as collateral, an investor may be required to top-up the investors' existing instalment if the prices of units fall below a certain level due to market conditions. Failing which, the units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the financing.</p> <p><u>Manager's Risk</u> This risk refers to our day-to-day management of the Fund which will impact the performance of the Fund. For example, investment decisions undertaken by us, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the Fund. In order to mitigate this risk, the implementation of internal controls and a structured investment process and operational procedures has been put in place by us.</p>

	<p><u>Non-Compliance Risk</u> This risk refers to the possibility that we may not follow the provisions set out in this Prospectus or the Deed or the law, rules or guidelines or internal operating policies which governs the Fund. Non-compliance may occur directly due to factors such as human error or system failure and can also occur indirectly due to amendment on the relevant regulatory frameworks, laws, rules, and other legal practices affecting the Fund. This risk may result in operational disruptions and potential losses to the Fund. We aim to reduce this risk by placing stringent internal policies and procedures and compliance monitoring processes to ensure that the Fund is in compliance with the relevant fund regulations or guidelines.</p> <p><u>Returns Are Not Guaranteed</u> Investors should be aware that there is no guarantee of any returns, i.e. income distribution or capital appreciation by investing in the Fund. Unlike fixed deposits placed directly by the investors into any financial institution which carry a specific rate of return, the Fund does not provide a fixed rate of return.</p>
<p>Specific Risks of the Fund</p>	<p><u>Stock Specific Risk</u> Prices of a particular Shariah-compliant stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such Shariah-compliant stock will adversely affect the Fund's NAV.</p> <p><u>Credit and Default Risk</u> Credit risk relates to the creditworthiness of the issuers of the sukuk or Islamic money market instruments and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the sukuk or Islamic money market instruments. In the case of rated sukuk or Islamic money market instruments, this may lead to a credit downgrade. Default risk refers to the possibility that the issuer of the sukuk or Islamic money market instrument is unable to make timely or full payments of principal and/or profit when due. In the event of a default in payment of principal and/or profit, this may cause a reduction in the value of the Fund. We will endeavour to take the necessary steps to deal with the investments in the best interest of the Unit Holders including to dispose of the defaulted investments within a time frame deemed reasonable by us.</p> <p><u>Currency Risk</u> As the base currency of the Fund is denominated in USD and the currency denomination of the Classes may be denominated in other than USD, the Classes not denominated in USD are exposed to currency risk. Any fluctuation in the exchange rates between USD and the currency denomination of the Class (other than USD Class) will affect the Unit Holder's investments in those Classes (other than USD Class). The impact of the exchange rate movement between the base currency of the Fund and the currency denomination of the Class (other than USD Class) may result in a depreciation of the Unit Holder's holdings as expressed in the base currency of the Fund.</p> <p>In order to manage currency risk, we may employ currency hedging strategies to fully or partially hedge the foreign currency exposure of the Class not denominated in USD. However, every hedge comes with a cost and will be borne by the respective Class.</p> <p>Currency hedging may reduce the effect of the exchange rate movement for the Class being hedged (other than USD Class) but it does not entirely eliminate currency risk between the Class and the base currency of the Fund. The unhedged portion of the Class will still be affected by the exchange rate</p>

	<p>movements and it may cause fluctuation of NAV of the Class. You should note that if the exchange rate moves favourably, the Class (other than USD Class) will not benefit from any upside in currency movement due to the hedging strategy. In addition, hedging is subject to a minimum size of entering into a hedging contract and the cost of hedging may affect returns of the hedged class.</p> <p><u>Profit Rate Risk</u> Profit rate risk refers to the impact of profit rate changes on the valuation of sukuk and Islamic money market instruments. When profit rates rise, sukuk and Islamic money market instruments prices generally decline and this may lower the market value of the Fund's investment in sukuk and Islamic money market instruments. The reverse may apply when profit rates fall.</p> <p>In order to mitigate profit rate risk, we will need to manage the sukuk and Islamic money market instruments portfolio by taking into account the profit rate and time to maturity of the sukuk and Islamic money market instruments.</p> <p><u>Country Risk</u> Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or prices of Units to fall.</p> <p><u>Reclassification of Shariah Status Risk</u> This risk refers to the risk that the currently held Shariah-compliant equities in the Fund may be reclassified as Shariah non-compliant in the periodic review of the equities by the SACSC, the Shariah Adviser or the Shariah boards of the relevant Islamic indices. If this occurs, we will take the necessary steps to dispose such equities. There may be opportunity loss to the Fund due to the Fund not being allowed to retain the excess capital gains derived from the disposal of the Shariah non-compliant equities. The value of the Fund also may be adversely affected in the event of a disposal of Shariah non-compliant equities at a price lower than the investment cost. Please refer to "Shariah Investment Guidelines" below for details on the treatment of gains and losses as a result of the reclassification of Shariah non-compliant equities.</p> <p><u>Shariah-compliant Warrants Risk</u> The Fund may also invest in Shariah-compliant equity related securities equivalent to shares such as Shariah-compliant warrants. The price of Shariah-compliant warrants is typically linked to the underlying stocks. However, the price and performance of such Shariah-compliant warrants will generally fluctuate more than the underlying stocks because of the greater volatility of the warrants market. Generally, as the Shariah-compliant warrants have a limited life, they will depreciate in value as they approach their maturity date, assuming that all other factors remain unchanged. Warrants that are not exercised at maturity become worthless and negatively affect the NAV of the Fund.</p>
Risk Management Strategies	<p>Risk management is an integral part of our investment management process. We employ measures such as asset allocation strategy in order to manage the specific risks of the Fund. When downturn is expected in equity markets and liquidity risks are high, we may reduce the Fund's allocation in Shariah-compliant equities and Shariah-compliant equity related securities and increase its asset allocation to Islamic liquid assets to safeguard the investment portfolio of the Fund. The Fund's exposure will also be spread across various countries,</p>

	<p>sectors, counterparties and companies as diversification strategy is also recognized by us as an essential risk management strategy for the Fund.</p> <p>In order to ensure that the Fund is managed in accordance with the Guidelines and the Deed, proper procedures and parameters are in place to manage the risks that are applicable to the Fund. Regular monitoring, reviews and reporting are also undertaken by us to ensure that the Fund's investment objective is met.</p>

Investors are reminded that the risks listed above may not be exhaustive and if necessary, they should consult their adviser(s), e.g. their bankers, lawyers, stockbrokers or independent professional advisers for a better understanding of the risks.

Investment in Malaysia</p> <p><u>Equity:</u> The Fund will invest based on a list of Shariah-compliant equities issued by the SACSC.</p> <p>For Initial Public Offering (IPO) companies that have yet to be determined the Shariah status by the SACSC, the Shariah Adviser adopts the following analysis as a temporary measure in determining its Shariah status until the SACSC releases the Shariah status of the respective companies.</p> <p>(1) <u>Qualitative analysis</u></p> <p>In this analysis, the Shariah Adviser will look into aspects of general public perception of the companies' images, core businesses which are considered important and <i>maslahah</i> (beneficial) to the Muslim <i>ummah</i> (nation) and the country. The non-permissible elements are very small and involve matters like <i>umum balwa</i> (common plight and difficult to avoid), '<i>uruf</i> (custom) and rights of the non-Muslim community which are accepted under the Shariah.</p> <p>(2) <u>Quantitative analysis</u></p> <p>Companies which passed the above qualitative analysis will be further subjected to quantitative analysis. (4) FEES, CHARGES AND EXPENSES

Due to multiple Classes in this Fund, the indirect fees and/or charges for the Fund are apportioned based on the size of the Class relative to the whole Fund. This means that the multi-class ratio (“MCR”) is calculated by taking the “value of a Class” for a particular day and dividing it with the “value of the Fund” for that same day. This apportionment is expressed as a ratio and is calculated as a percentage. As an illustration, assuming there is an indirect fee chargeable to the Fund of USD100 and the size of MYR Class, MYR (Hedged) Class and USD Class over the size of the Fund is 50%,30% and 20% respectively, the ratio of the apportionment based on the percentage will be 50:30:20, 50% being borne by MYR Class, 30% being borne by MYR (Hedged) Class and 20% being borne by USD Class.

Please refer to the illustration in Section 5.3 of this Prospectus below for better clarity.

(5) TRANSACTION INFORMATION

5.1 Bases of Valuation of Investments

Listed Shariah-compliant securities (including listed sukuk and listed Islamic collective investment schemes)

Listed Shariah-compliant securities will be valued daily based on the last done market price.

However, if:-

- (a) a valuation based on the market price does not represent the fair value of the listed Shariah-compliant securities, for example during abnormal market conditions; or
- (b) no market price is available, including in the event of a suspension in the quotation of listed Shariah-compliant securities for a period exceeding 14 days, or such shorter period as agreed by the Trustee,

then the listed Shariah-compliant securities would be valued at fair value, as determined in good faith by us based on the methods or bases approved by the Trustee after appropriate technical consultation.

Unlisted Sukuk

Investments in unlisted RM-denominated sukuk will be valued based on price quoted by a bond pricing agency (“BPA”) registered with the SC. Where we are of the view that the price quoted by BPA for a specific sukuk differs from the “market price” by more than 20 basis points, we may use the “market price” provided that we comply with the requirements of the Guidelines.

Investments in other unlisted sukuk will be valued based on fair value by reference to the average indicative yield quoted by 3 independent and reputable institutions.

Islamic Money Market Instruments

Investments in Islamic commercial papers and Islamic treasury bills are valued each day based on the price quoted by BPA registered with the SC.

For investments in Islamic money market instruments that are not quoted by BPA, such instruments are valued each day at cost, adjusted for amortisation of premium or accretion of discount over their par value at the time of acquisition, less provision for any diminution in value.

Islamic Deposits

Islamic deposits placed with financial institutions are valued each day by reference to the value of such investments and the profits accrued thereon for the relevant period.

Unlisted Islamic Collective Investment Schemes

Investment in unlisted Islamic collective investment schemes will be valued based on the last published repurchase price.

Islamic Derivatives

Islamic derivative positions will be valued daily at fair value, as determined in good faith by us based on methods or bases which have been verified by the auditor and approved by the Trustee.

Foreign Exchange Translation

All the foreign assets of the Fund are translated on a daily basis to the base currency of the Fund, USD, using the bid foreign exchange rate quoted by either Reuters or Bloomberg, at United Kingdom time 4.00 p.m. which is equivalent to 11.00 p.m. or 12.00 midnight (Malaysia time) on the same day, or such other time as prescribed from time to time by the Federation of Investment Managers Malaysia (“FiMM”) or any relevant laws.

Any other investments

Fair value as determined in good faith by us or External Investment Manager, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

5.2 Valuation Point

The Fund is valued once every Business Day after the close of the market in which the portfolio of the Fund is invested for the relevant day but not later than the end of next Business Day.

As such, the daily price of the Fund for a particular Business Day will not be published on the next Business Day but will instead be published 2 Business Days later (i.e., the price will be 2 days old).

5.3 Computation of NAV and NAV per Unit

The NAV of the Fund is determined by deducting the value of the Fund's liabilities from the value of the Fund's assets, at a valuation point.

Please note that the example below is for illustration only:

	Fund (USD)	MYR Class (USD)	MYR (Hedged) Class (USD)	USD Class (USD)
Value of the Fund/Class	101,500,000.00	50,750,000.00	30,450,000.00	20,300,000.00
Multi-class ratio^	100%	50%	30%	20%
Add: Other assets (including cash) & income	200,000.00	100,000.00	60,000.00	40,000.00
Less: Liabilities	100,000.00	50,000.00	30,000.00	20,000.00
NAV before deducting management fee and trustee fee for the day	101,600,000.00	50,800,000.00	30,480,000.00	20,320,000.00
Less: Management fee for the day		$(50,800,000 \times 1.80\% / 365 \text{ days})$	$(30,480,000 \times 1.80\% / 365 \text{ days})$	$(20,320,000 \times 1.80\% / 365 \text{ days})$
	5,010.41	2,505.21	1,503.12	1,002.08
Less: Trustee fee for the day		$(50,800,000 \times 0.045\% / 365 \text{ days})$	$(30,480,000 \times 0.045\% / 365 \text{ days})$	$(20,320,000 \times 0.045\% / 365 \text{ days})$
	125.26	62.63	37.58	25.05
Total NAV (USD)	101,594,864.33	50,797,432.16	30,478,459.30	20,318,972.87

^Multi-class ratio is apportioned based on the size of the Class relative to the whole Fund. This means the multi-class ratio is calculated by taking the value of a Class for a particular day and dividing it with the value of the Fund for that same day. This apportionment is expressed as a ratio and calculated as a percentage.

The NAV per Unit of a Class is calculated by dividing the NAV of the Fund attributable to the Class by the number of Units in circulation of that Class at the end of each Business Day.

Assuming there are 260,000,000 Units of the Fund in circulation at the point of valuation, the NAV per Unit of a Class shall therefore be calculated as follows:

	Fund (USD)	MYR Class (USD)	MYR (Hedged) Class (USD)	USD Class (USD)
NAV	101,594,864.33	50,797,432.16	30,478,459.30	20,318,972.87
Divide: Units in circulation	260,000,000	150,000,000	90,000,000	20,000,000
NAV per Unit of the Class (USD)		USD0.33865	USD0.33865	USD1.0159
Conversion to MYR (at USD1:MYR4.00 exchange rate)		MYR1.3546	MYR1.3546	

The NAV per Unit of each Class will be rounded up to 4 decimal places for the purposes of publication of the NAV per Unit.

5.4 Pricing of Units

Single Pricing Regime

We adopt a **single pricing regime** in calculating your investments into and redemption of Units. This means that all purchases and redemptions are transacted on a single price (i.e. NAV per Unit). You would therefore purchase and redeem Units at NAV per Unit. The Selling Price per Unit and Redemption Price per Unit are based on Forward Pricing.

Selling Price of Units

The Selling Price of a Unit of a Class of the Fund is the NAV per Unit at the next valuation point after the request to purchase Units is received by us (Forward Pricing). The sales charge applicable to the Class is payable by you in addition to the Selling Price for the Units purchased.

Calculation of Selling Price

Illustration - Sale of Units

Example:

If you wish to invest RM10,000.00 in MYR Class before 4.00 p.m. on 1 April 2019, and if the sales charge is 5.00% of the NAV per Unit, the total amount to be paid by you and the number of Units issued to you will be as follows:

Sales charge payable by you = 5.00% x 10,000.00 = **RM500**

The total amount to be paid by you for your investment will therefore be:

RM10,000.00 + RM500

= **RM10,500.00** (inclusive of sales charge)

In the event that the NAV per Unit for MYR Class at the end of the Business Day on 1 April 2019 = RM1.0000

The number of Units that will be issued to you will be:
RM10,000.00 divided by RM1.0000 = 10,000.00 Units

You are advised not to make payment in cash when purchasing Units of the Fund via any individual agent.

Redemption Price of Units

The Redemption Price of a Unit of a Class of the Fund is the NAV per Unit at the next valuation point after the redemption request is received by us (Forward Pricing).

Calculation of Redemption Price

Illustration - Redemption of Units

Example:

If you wish to redeem RM10,000.00 from MYR Class before 4.00 p.m. on any Business Day, and if no redemption charge is imposed, the total amount to be paid to you and the number of Units redeemed by you will be as follows:

In the event that the NAV per Unit for MYR Class at the end of the Business Day on 1 April 2019 = RM1.0000

The number of Units that will be redeemed by you will be:
RM10,000.00 divided by RM1.0000 (the NAV per Unit for MYR Class)
= 10,000.00 Units

The total amount to be paid to you will be the number of Units to be redeemed multiplied with the NAV per Unit.
= 10,000.00 Units x RM1.0000
= RM10,000.00

Therefore, you will receive RM10,000.00 as redemption proceeds.

5.5 Incorrect Pricing

We shall ensure that the Fund and the Units of the Class are correctly valued and priced according to the Deed and all relevant laws. Where there is an error in the valuation and pricing of the Fund and/or Units, any incorrect valuation and pricing of the Fund and/or Units which is deemed to be significant will involve the reimbursement of money in the following manner:

- (i) by us to the Fund; or
- (ii) by the Fund to you and/or the former Unit Holders.

However, reimbursement of money shall only apply if the error is at or above the significant threshold of 0.5% of the NAV per Unit and the amount to be reimbursed is RM10.00 or more.

There are fees and charges involved and you are advised to consider the fees and charges before investing in the Fund.

	MYR Class	MYR (Hedged) Class	USD Class

Minimum Additional Investment [^]	RM100	RM100	USD100

[^] or such other amount as determined by us from time to time.

Investors are recognised as Unit Holders only after they have been registered in the Unit Holders' register. The registration takes effect from the date we receive and accept the application to purchase Units from you together with the payment thereof.

Unit holdings for each Class

You should note that there are differences when purchasing Units for each Class in certain circumstances.

There is no difference in terms of investment value of each Unit Holder, and all Unit Holders would have equal voting rights at Unit Holders' meetings of the Fund (if voting is done by poll as the Units held by him or her will be proportionate to the value of the Units).

However, this would not apply in situations where a show of hands is required to pass a resolution at a Unit Holders' meeting of the Fund.

5.8 Redemption of Units

You may redeem part or all of your Units by simply completing the redemption request form and returning it to us.

For partial redemption, the minimum redemption amount is 100 Units. The Unit holdings for each Class after the redemption must not be less than the Unit holdings set out below:

Minimum Unit holdings [^]	1,000 Units	1,000 Units	1,000 Units

[^] or such other number of Units as determined by us from time to time.

If your Unit holdings are, after a redemption request, below the minimum Unit holdings for the Class, full redemption will be initiated.

You shall be paid within 10 calendar days from the date the redemption request is received by us.

Other than the above conditions, there is no restriction in terms of the frequency of

redemption for the Fund.

5.9 Transfer of Units

Transfer of ownership of Units is allowed for this Fund.

Transfer of ownership from the account of the deceased Unit Holder to his/her personal representative will only be undertaken through the process of estate administration and death claims procedures.

5.10 Switching

You are permitted to switch from and to other funds managed by us provided that both funds are denominated in the same currency. Switching will be made at the prevailing NAV per Unit of the Class to be switched from on a Business Day when the switching request is received and accepted by us, subject to the availability and any terms and conditions imposed by the intended fund, if any. The table below sets out the pricing policy for the intended fund that you intend to switch to:

Switch in fund	Pricing day (business day)	
	Switch out fund	Switch in fund
Money market fund	T day	T day
Local fund	T day	T+1 day
Foreign fund	T day	T+ 2 days

Note:

Foreign fund refers to a fund with foreign investments.

Local fund refers to a fund without foreign investments.

There is no restriction on the frequency of switching. However, you must meet the minimum Units for redemption and the minimum Unit holdings (after the switch) of the Class that you intend to switch from unless you are redeeming all your investments from the Class.

Switching is treated as a withdrawal from 1 fund and an investment into another fund. If you switch from a fund with a lower sales charge to a fund with a higher sales charge, you need to pay the difference in sales charge between the sales charges of these 2 funds in addition to the switching fee. If you switch from a fund with higher sales charge to a fund with a lower sales charge, you do not need to pay the difference in sales charge between these funds.

For example:-

Scenario 1

If you invest in a fund with no sales charge and now wish to switch to another fund which has a sales charge of 1.00% on the net asset value per unit, you will be charged the difference in sales charge of 1.00% on the net asset value per unit of the fund being switched into in addition to the switching fee of the fund you switched from.

Scenario 2

If you invest in a fund with a sales charge of 1.00% on the net asset value per unit and now wish to switch to another fund which has no sales charge, you will not be charged any sales charge.

Any switching request made **on or before the cut off time of 4.00 p.m.** will be made at the NAV per Unit of the Class to be switched from when the switching request is received and accepted by us on a Business Day, subject to availability and any terms and conditions imposed by the intended fund, if any.

Any switching request received or deemed to have been received after this cut-off time would be considered as being transacted on the following Business Day.

5.11 Dealing Cut-Off Time for Investment and Redemption of Units

The dealing cut-off time is at 4.00 p.m. on a Business Day.

Any application received before the cut-off time on a Business Day will be processed on the same Business Day based on the Forward Pricing of the Fund.

Any application received after the cut-off time on a Business Day will be treated as having been received on the next Business Day and will be processed on the next Business Day based on the next Forward Pricing of the Fund.

The above is in accordance with the standards issued by FIMM on the dealing cut-off time.

5.12 Notice of Cooling-off Period

We and our directors including the investment committee members will at all times act in the best interests of the Unit Holders of the Fund and will not conduct ourselves in any manner that will result in a conflict of interest or potential conflict of interest. In the unlikely event that any conflict of interest arises, such conflict shall be resolved such that the Fund is not disadvantaged. In the unlikely event that we face conflicts in respect of our duties to the Fund and our duties to the other funds that we manage, we are obliged to act in the best

interests of all our investors and will seek to resolve any conflicts fairly and in accordance with the Deed and the relevant laws.

Where a conflict or potential conflict of interest situation arises, it will be evaluated by the compliance department and disclosed to our executive director for the next course of action. Conflict of interest situations involving the executive director will be disclosed to our board of directors for a decision on the next course of action. We have also appointed a senior compliance officer whose duties include monitoring and resolving conflict of interest situations in relation to unit trust funds managed and administered by us.

Dear Sirs

Taxation of the unit trust fund and unit holders

This letter has been prepared for inclusion in this First Prospectus ("the Prospectus") in connection with the offer of units in the unit trust fund known as Maybank Global Mixed Assets-I Fund (hereinafter referred to as "the Fund").

The purpose of this letter is to provide prospective unit holders with an overview of the impact of taxation on the Fund and the unit holders.

Taxation of the Fund

The taxation of the Fund is subject to the provisions of the Malaysian Income Tax Act 1967 (MITA), particularly Sections 61 and 63B.

Subject to certain exemptions, the income of the Fund comprising profits and other investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is subject to Malaysian income tax at the rate of 24% with effect from the year of assessment 2016.

Under Section 2(7) of the MITA, any reference to interest shall apply, *mutatis mutandis*, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of *Syariah*.

The effect of this is that any gains or profits received (hereinafter referred to as “profits”) and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of *Syariah*, will be accorded the same tax treatment as if they were interest.

Tax allowable expenses would comprise expenses falling under Section 33(1) and Section 63B of the MITA. Section 33(1) permits a deduction for expenses that are wholly and exclusively incurred in the production of gross income. In addition, Section 63B allows unit trusts a deduction for a portion of other expenses (referred to as ‘permitted expenses’) not directly related to the production of income, as explained below.

“Permitted expenses” refer to the following expenses incurred by the Fund which are not deductible under Section 33(1) of the MITA:

- the manager's remuneration,
- maintenance of the register of unit holders,
- share registration expenses,
- secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage.

These expenses are given a partial deduction under Section 63B of the MITA, based on the following formula:

$$A \times \frac{B}{4C}$$

- where
- A is the total of the permitted expenses incurred for that basis period;
 - B is gross income consisting of dividend¹, interest and rent chargeable to tax for that basis period; and
 - C is the aggregate of the gross income consisting of dividend¹ and interest (whether such dividend or interest is exempt or not) and rent, and gains made from the realisation of investments (whether chargeable to tax or not) for that basis period,

provided that the amount of deduction to be made shall not be less than 10% of the total permitted expenses incurred for that basis period.

¹ Pursuant to Section 15 of the Finance Act 2011, with effect from the year of assessment 2011, dividend income is deemed to include income distributed by a unit trust which includes distributions from Real Estate Investment Trusts.

Exempt income

The following income of the Fund is exempt from income tax:

- **Malaysian sourced dividends**

All Malaysian-sourced dividends should be exempt from income tax.

- **Malaysian sourced interest (profits)**

- (i) interest from securities or bonds issued or guaranteed by the Government of Malaysia;
- (ii) interest from debentures or *sukuk*, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission;
- (iii) interest from Bon Simpanan Malaysia issued by Bank Negara Malaysia;
- (iv) interest derived from Malaysia and paid or credited by banks licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013²;
- (v) interest derived from Malaysia and paid or credited by any development financial institution prescribed under the Development Financial Institutions Act 2002²;
- (vi) interest from *sukuk* originating from Malaysia, other than convertible loan stock issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission or approved by the Labuan Financial Services Authority (LFSA)³; and
- (vii) interest which is specifically exempted by way of statutory orders or any other specific exemption provided by the Minister.

² Effective from 1 January 2019, the income tax exemption for a unit trust fund, pursuant to Paragraph 35A, Schedule 6 of the Income Tax Act shall not apply to a wholesale fund which is a money market fund.

³ Effective from the year of assessment 2017, the exemption shall not apply to interest paid or credited to a company in the same group or interest paid or credited to a bank licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013; or a development financial institution prescribed under the Development Financial Institutions Act 2002.

- **Discount**

Tax exemption is given on discount paid or credited to any unit trust in respect of investments as specified in items (i), (ii) and (iii) above.

Foreign sourced income

Dividends, profits and other income derived from sources outside Malaysia and received in Malaysia by a resident unit trust is exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Gains from the realisation of investments

Pursuant to Section 61(1) (b) of the MITA, gains from the realisation of investments will not be treated as income of the Fund and hence, are not subject to income tax. Such gains may be subject to real property gains tax (RPGT) under the Real Property Gains Tax Act 1976 (RPGT Act), if the gains are derived from the disposal of chargeable assets, as defined in the RPGT Act.

Implementation of Sales and Service Tax (“SST”)

The new Sales and Service Tax (“SST”) was implemented effective 1 September 2018. Sales Tax of 10% (most common rate) or 5% is charged by Malaysian manufacturers of taxable goods or upon importation into Malaysia of such taxable goods, unless specifically exempted under the Sales Tax (Goods Exempted From Tax) Order 2018. Service Tax at the rate of 6% is charged on certain prescribed taxable services performed by taxable persons as stipulated under Service Tax Regulations 2018. The input tax recovery mechanism under the previous GST regime does not apply to SST. Therefore, any SST incurred is not recoverable and will form a cost element for businesses.

Based on the Service Tax Regulations 2018, a unit trust fund is neither regarded as a taxable person nor as providing taxable services and is therefore not liable for SST registration. Where the Fund incurs expenses such as management fees, the management services provided by asset and fund managers are specifically excluded from the scope of Service Tax. As for other fees, such as trustee fees and other administrative charges, these may be subject to 6% service tax provided they fall within the scope of service tax (i.e. are provided by a “taxable person”, who exceeds the required annual threshold (in most cases RM 500,000 per annum) and the services qualify as “taxable services”).

Taxation of unit holders

For Malaysian income tax purposes, unit holders will be taxed on their share of the distributions received from the Fund.

The income of unit holders from their investment in the Fund broadly falls under the following categories:

1. taxable distributions; and
2. non-taxable and exempt distributions.

In addition, unit holders may also realise a gain from the sale of units.

The tax implications of each of the above categories are explained below:

1. Taxable distributions

Distributions received from the Fund will have to be grossed up to take into account the underlying tax paid by the Fund and the unit holder will be taxed on the grossed up amount.

Such distributions carry a tax credit, which will be available for set-off against any Malaysian income tax payable by the unit holder. Should the tax deducted at source exceed the tax liability of the unit holder, the excess is refundable to the unit holder.

Please refer to the paragraph below for the income tax rates applicable to the grossed up distributions.

2. Non-taxable and exempt distributions

Tax exempt distributions made out of gains from the realisation of investments and exempt income earned by the Fund will not be subject to Malaysian income tax in the hands of the unit holders.

Rates of tax

The Malaysian income tax chargeable on the unit holders would depend on their tax residence status and whether they are individuals, corporations or trust bodies. The relevant income tax rates are as follows:

Note 1:

The Income Tax (Exemption) (No. 2) Order 2017 [P. U. (A) 117] was gazetted on 10 April 2017 to formalize the Budget 2017 proposal to reduce the corporate income tax rate on incremental chargeable income. The Exemption Order exempts a qualifying person from payment of income tax on an ascertained amount of chargeable income derived from the business source in the basis period for a year of assessment, for the years of assessment 2017 and 2018 only. A qualifying person includes a trust body that is resident in Malaysia but excludes a Real Estate Investment Trust or Property Trust Fund. The corporate income tax rate would be reduced by between one to four percentage points, depending on the increase in chargeable income derived from the business source (as compared to the immediate preceding year of assessment). Details of the further qualifications and conditions imposed are set out in the Exemption Order.

⁵ A company would not be eligible for the 18% tax rate on the first RM500,000 of chargeable income if:-

- (a) more than 50% of the paid up capital in respect of the ordinary shares of the company is directly or indirectly owned by a related company which has paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment;
- (b) the company owns directly or indirectly more than 50% of the paid up capital in respect of the ordinary shares of a related company which has paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment;
- (c) more than 50% of the paid up capital in respect of the ordinary shares of the company and a related company which has a paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment is directly or indirectly owned by another company.

Note 2:

Non-resident unit holders may be subject to tax in their respective countries depending on the provisions of the tax legislation in the respective countries and any existing double taxation arrangements with Malaysia.

Gains from sale of units

Gains arising from the realisation of investments will generally not be subject to income tax in the hands of unit holders unless they are insurance companies, financial institutions or traders/ dealers in securities.

Unit splits and reinvestment of distributions

Unit holders may also receive new units as a result of unit splits or may choose to reinvest their distributions. The income tax implications of these are as follows:

- Unit splits - new units issued by the Fund pursuant to a unit split will not be subject to income tax in the hands of the unit holders.
- Reinvestment of distributions - unit holders may choose to reinvest their income distribution in new units by informing the Manager. In this event, the unit holder will be deemed to have received the distribution and reinvested it with the Fund.

(14) UNIT TRUST FINANCING RISK DISCLOSURE STATEMENT

Investing in a Unit Trust Fund with Borrowed Money is More Risky than Investing with Your Own Savings.

You should assess if financing is suitable for you in light of your objectives, attitude to risk and financial circumstances. You should be aware of the risks, which would include the following:

- (a) The higher the margin of financing (that is, the amount of money you borrow for every Ringgit Malaysia of your own money which you put in as deposit or down payment) the greater the loss or gain on your investment.
- (b) You should assess whether you have the ability to service the repayments on the proposed financing. If your financing is a variable rate loan, and if profit rates rise, your total repayment amount will be increased.
- (c) If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the time prescribed, your units may be sold towards the settlement of your financing.
- (d) Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are experienced. Whether you eventually realise a gain or loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.

The brief statement cannot disclose all the risks and other aspects of financing. You should therefore carefully study the terms and conditions before you decide to take a financing. If you are in doubt about any aspect of this risk disclosure statement or the terms of the financing, you should consult the institution offering the financing.
