	<p> Holders, we have the discretion to take into consideration all relevant factors that affect the value of the investment before deciding on the manner and time frame of its liquidation.</p> <p> The Fund may also invest up to 20% of its NAV in unrated sukuk issued by a government or an entity wholly owned or explicitly guaranteed by a government provided the issuer satisfy the minimum credit rating of B3 by Moody’s or equivalent ratings by other international/global rating agencies, and in unrated sukuk issued by subsidiaries or special purpose vehicles (“SPV”) of Malaysian government linked corporations provided the issuer satisfy the minimum credit rating of Baa3 by Moody’s or equivalent ratings by other international/global rating agencies. The Fund’s investment in sub-investment grade sukuk (sukuk rated below Baa3 and unrated sukuk issued or guaranteed by governments rated below Baa3) must not exceed 20% of the Fund’s NAV.</p> <p> The External Investment Manager and/or Investment Adviser seek to adopt a dynamic asset allocation approach, which involves adjusting the Fund’s portfolio allocation to various asset classes according to prevailing market conditions.</p> <p><u>Equity</u></p> <p> In addition to being Shariah-compliant, the equities portfolio is constructed with a focus on stock selection, particularly in companies which the External Investment Manager and/or Investment Adviser has a high conviction that the current share price does not reflect the future prospects for that business. The External Investment Manager and/or Investment Adviser seek to identify companies which they believe will deliver future earnings growth above the level expected by the market typically on a 3-5 years horizon (we term this as ‘a positive growth gap’). The equity investments are also managed with reference to material environmental, social and governance factors. This means issues such as climate change, environmental performance, labour standards or board composition that could impact a company’s value may be considered in the assessment of companies.</p> <p><u>Sukuk</u></p> <p> The Fund invests in global sukuk approved by the Shariah Adviser and having diversified exposure to risk factors such as duration strategy, interest rates movements, region/country, sector/industrial exposures relative to the benchmark.</p> <p> The Fund will use Islamic derivatives such as Islamic currency forwards for hedging purposes to manage the currency risk of the Classes not denominated in USD. The Fund’s exposure to Islamic derivatives, if any, will be calculated based on the commitment approach as disclosed in the section below under heading “Use of Islamic Derivatives”.</p>

RISK FACTORS

FUND	Maybank Global Mixed Assets-I Fund
General Risks of Investing in the Fund	<p><u>Market Risk</u> Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the Fund's NAV. We will monitor the financial markets closely and act on any adverse news accordingly.</p> <p><u>Inflation Risk</u> This is the risk that investors' investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased.</p> <p><u>Liquidity Risk</u> Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavourable prices.</p> <p>Liquidity risk of the Fund is also our ability as manager to honour redemption requests or to pay Unit Holders' redemption proceeds in a timely manner. We will actively manage the liquidity of the Fund and/or where available, take cash financing on a temporary basis as permitted by the relevant laws to manage the Unit Holders' redemption requests.</p> <p><u>Financing Risk</u> This risk occurs when investors take a financing to finance their investment. The inherent risk of investing with financed money includes investors being unable to service the financing. In the event Units are used as collateral, an investor may be required to top-up the investors' existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the financing.</p> <p><u>Manager's Risk</u> This risk refers to our day-to-day management of the Fund which will impact the performance of the Fund. For example, investment decisions undertaken by us, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due</p>

	<p>to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the Fund. In order to mitigate this risk, the implementation of internal controls and a structured investment process and operational procedures has been put in place by us.</p> <p><u>Non-Compliance Risk</u> This risk refers to the possibility that we may not follow the provisions set out in this Prospectus or the Deed or the law, rules or guidelines or internal operating policies which governs the Fund. Non-compliance may occur directly due to factors such as human error or system failure and can also occur indirectly due to amendment on the relevant regulatory frameworks, laws, rules, and other legal practices affecting the Fund. This risk may result in operational disruptions and potential losses to the Fund. We aim to reduce this risk by placing stringent internal policies and procedures and compliance monitoring processes to ensure that the Fund is in compliance with the relevant fund regulations or guidelines.</p> <p><u>Returns Are Not Guaranteed</u> Investors should be aware that there is no guarantee of any returns, i.e. income distribution or capital appreciation by investing in the Fund. Unlike fixed deposits placed directly by the investors into any financial institution which carry a specific rate of return, the Fund does not provide a fixed rate of return.</p> <p><u>Suspension of Redemption Risk</u> The Fund may, in consultation with the Trustee and having considered the interests of the Unit Holders, suspend the redemption of Units under exceptional circumstances, where the fair value of a material portion of the Fund's assets cannot be reasonably determined. Upon suspension, the Fund will not be able to pay Unit Holders' redemption proceeds in a timely manner and Unit Holders will be compelled to remain invested in the Fund for a longer period of time than the stipulated redemption timeline. Hence, Unit Holder's investments will continue to be subjected to the risk factors inherent to the Fund. Please refer to Section 5.9 of this Prospectus for more information on suspension of dealing in Units.</p>
<p>Specific Risks of the Fund</p>	<p><u>Stock Specific Risk</u> Prices of a particular Shariah-compliant stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such Shariah-compliant stock will adversely affect the Fund's NAV.</p> <p><u>Credit and Default Risk</u> Credit risk relates to the creditworthiness of the issuers of the sukuk or Islamic money market instruments and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the sukuk or Islamic money market instruments. In the case of rated sukuk or Islamic money market instruments, this may lead to a credit downgrade. Default risk refers to the possibility that the issuer of the sukuk or Islamic money market instrument is unable to make timely or full payments of principal and/or profit when due. In the event of a default in payment of principal and/or profit, this may cause a reduction in the value of the Fund. We will endeavour to take the necessary steps to deal with the investments in the best interest of the Unit Holders including to dispose of the defaulted investments within a time frame deemed reasonable by us.</p> <p><u>Currency Risk</u> As the base currency of the Fund is denominated in USD and the currency denomination of the Classes may be denominated in other than USD, the Classes not denominated in USD are exposed to currency risk. Any fluctuation in the</p>

exchange rates between USD and the currency denomination of the Class (other than USD Class and USD (Institutional) (Distribution) Class) will affect the Unit Holder's investments in those Classes (other than USD Class and USD (Institutional) (Distribution) Class). The impact of the exchange rate movement between the base currency of the Fund and the currency denomination of the Class (other than USD Class and USD (Institutional) (Distribution) Class) may result in a depreciation of the Unit Holder's holdings as expressed in the base currency of the Fund.

In order to manage currency risk, we may employ currency hedging strategies to fully or partially hedge the foreign currency exposure of the Class not denominated in USD. However, every hedge comes with a cost and will be borne by the respective Class.

Currency hedging may reduce the effect of the exchange rate movement for the Class being hedged (other than MYR Class, MYR (Institutional) (Distribution) Class, USD Class and USD (Institutional) (Distribution) Class) but it does not entirely eliminate currency risk between the Class and the base currency of the Fund. The unhedged portion of the Class will still be affected by the exchange rate movements and it may cause fluctuation of NAV of the Class. You should note that if the exchange rate moves favourably, the Class (other than MYR Class, MYR (Institutional) (Distribution) Class, USD Class and USD (Institutional) (Distribution) Class) will not benefit from any upside in currency movement due to the hedging strategy. In addition, hedging is subject to a minimum size of entering into a hedging contract and the cost of hedging may affect returns of the hedged class.

Profit Rate Risk

Profit rate risk refers to the impact of profit rate changes on the valuation of sukuk and Islamic money market instruments. When profit rates rise, sukuk and Islamic money market instruments prices generally decline and this may lower the market value of the Fund's investment in sukuk and Islamic money market instruments. The reverse may apply when profit rates fall.

In order to mitigate profit rate risk, we will need to manage the sukuk and Islamic money market instruments portfolio by taking into account the profit rate and time to maturity of the sukuk and Islamic money market instruments.

Country Risk

Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or prices of Units to fall.

Reclassification of Shariah Status Risk

This risk refers to the risk that the currently held Shariah-compliant equities in the Fund may be reclassified as Shariah non-compliant in the periodic review of the equities by the SACSC, the Shariah Adviser or the Shariah boards of the relevant Islamic indices. If this occurs, we will take the necessary steps to dispose such equities. There may be opportunity loss to the Fund due to the Fund not being allowed to retain the excess capital gains derived from the disposal of the Shariah non-compliant equities. The value of the Fund also may be adversely affected in the event of a disposal of Shariah non-compliant equities at a price lower than the investment cost. Please refer to "Shariah Investment Guidelines" below for details on the treatment of gains and losses as a result of the reclassification of Shariah non-compliant equities.

	<p><u>Shariah-compliant Equity Related Securities Risk</u> The Fund may invest in Shariah-compliant equity related securities equivalent to shares such as Shariah-compliant warrants. The price of Shariah-compliant warrants is typically linked to the underlying stocks. However, the price and performance of such Shariah-compliant warrants will generally fluctuate more than the underlying stocks because of the greater volatility of the warrants market. Generally, as the Shariah-compliant warrants have a limited life, they will depreciate in value as they approach their maturity date, assuming that all other factors remain unchanged. Shariah-compliant warrants that are not exercised at maturity will become worthless and negatively affect the NAV of the Fund.</p> <p>The Fund’s investment in Shariah-compliant American Depositary Receipts and Shariah-compliant Global Depositary Receipts are also subject to the same risks as the equity shares of companies they are issued for and will fluctuate in value due to market, economic, political and other factors. Shariah-compliant American Depositary Receipts and Shariah-compliant Global Depositary Receipts are exposed to counterparty risks in the handling of the depositary receipts, may have differing accounting regimes from underlying assets, additional regulatory scrutiny, and may face unequal voting rights or economic interests relative to underlying shares. The prices of Shariah-compliant American Depositary Receipts and Shariah-compliant Global Depositary Receipts may diverge from the price of their underlying shares. Any adverse price movements of such Shariah-compliant American Depositary Receipts and Shariah-compliant Global Depositary Receipts will adversely affect the Fund’s NAV.</p> <p><u>Islamic Derivatives Risk</u> Islamic derivatives, if any, will only be used for the purpose of hedging the Fund’s portfolio from certain anticipated losses such as those resulting from unfavourable exchange rate movements. However, every hedge comes with a cost. In a move to mitigate the risk of uncertainty, the Fund is now exposed to the risk of opportunity loss. Once hedged, the Fund cannot take full advantage of favourable exchange rate movements. If the exposure which the Fund is hedging against makes money, the act of hedging would have typically reduced the potential returns of the Fund. On the other hand, if the exposure which the Fund is hedging against loses money, the act of hedging would have reduced the loss, if successfully hedged.</p> <p><u>Counterparty Risk</u> Counterparty risk refers to a risk that relates to the credit standing of counterparties when over-the-counter transactions are carried out and is generally not applicable to transactions performed through exchanges. In the event where counterparties of a contract fail to live up to its contractual obligations, the Fund will suffer from financial losses. The Fund seeks to reduce this risk by performing fundamental credit research and analysis to determine the creditworthiness of the counterparties, prior to commencement of the investment.</p> <p>Should there be a downgrade in the credit rating of the over-the-counter derivatives’ counterparty, we will evaluate the situation and reassess the creditworthiness of the counterparty. We will take the necessary steps in the best interest of the Fund.</p>
Risk Management Strategies	Risk management is an integral part of our investment management process. We employ measures such as asset allocation strategy in order to manage the specific risks of the Fund. When downturn is expected in equity markets and liquidity risks are high, we may reduce the Fund’s allocation in Shariah-compliant equities and Shariah-compliant equity related securities and increase its asset allocation to Islamic liquid assets to safeguard the investment portfolio

	<p>of the Fund. The Fund’s exposure will also be spread across various countries, sectors, counterparties and companies as diversification strategy is also recognized by us as an essential risk management strategy for the Fund.</p> <p>In order to ensure that the Fund is managed in accordance with the Guidelines and the Deed, proper procedures and parameters are in place to manage the risks that are applicable to the Fund. Regular monitoring, reviews and reporting are also undertaken by us to ensure that the Fund’s investment objective is met.</p> <p><u>Liquidity Risk Management</u> In managing the Fund’s liquidity, we will:</p> <p>(a) actively manage the liquidity of the Fund to meet redemption requests from Unit Holders; and/or</p> <p>(b) where available, take cash financing on a temporary basis for the purpose of meeting redemption requests for Units and for short term bridging requirements subject to the conditions set out in the section below under the heading “Financing and Borrowing”.</p> <p>However, if we have exhausted the above avenue, we will then, in consultation with the Trustee and having considered the interests of the Unit Holders, resort to suspend the redemption of Units to manage the liquidity of the Fund under exceptional circumstances, where the fair value of a material portion of the Fund’s assets cannot be reasonably determined. Any redemption request received by us during the suspension period will only be accepted and processed on the next Business Day after the cessation of suspension of the Fund. Please refer to Section 5.9 of this Prospectus for more information on suspension of dealing in Units.</p>

Due to multiple Classes in this Fund, the indirect fees and/or charges for the Fund are apportioned based on the size of the Class relative to the whole Fund. This means that the multi-class ratio (“MCR”) is calculated by taking the “value of a Class” for a particular day and dividing it with the “value of the Fund” for that same day. As an illustration, assuming there is an indirect fee chargeable to the Fund of USD100 and the size of MYR Class, MYR (Hedged) Class, MYR (Hedged) (Institutional) (Distribution) Class, MYR (Institutional) (Distribution) Class, USD Class, USD (Institutional) (Distribution) Class, AUD (Hedged) Class and SGD (Hedged) Class over the size of the Fund is 15%, 15%, 15%, 15%, 10%, 10%, 10% and 10% respectively, the ratio of the apportionment based on the percentage will be 15:15:15:15:10:10:10:10, 15% being borne by MYR Class, 15% being borne by MYR (Hedged) Class, 15% being borne by MYR (Hedged) (Institutional) (Distribution) Class, 15% being borne by MYR (Institutional) (Distribution) Class, 10% being borne by USD Class, 10% being borne by USD (Institutional) (Distribution) Class, 10% being borne by AUD (Hedged) Class and 10% being borne by SGD (Hedged) Class.

(5) TRANSACTION INFORMATION

5.1 Bases of Valuation of Investments

Listed Shariah-compliant Securities (including listed sukuk and listed Islamic collective investment schemes)

Listed Shariah-compliant securities will be valued daily based on the last done market price.

However, if:-

- (a) a valuation based on the market price does not represent the fair value of the listed Shariah-compliant securities, for example during abnormal market conditions; or
- (b) no market price is available, including in the event of a suspension in the quotation of listed Shariah-compliant securities for a period exceeding 14 days, or such shorter period as agreed by the Trustee,

then the listed Shariah-compliant securities would be valued at fair value, as determined in good faith by us based on the methods or bases approved by the Trustee after appropriate technical consultation.

Unlisted Sukuk

Investments in unlisted RM-denominated sukuk will be valued daily based on price quoted by a bond pricing agency (“BPA”) registered with the SC. Where we are of the view that the price quoted by BPA for a specific sukuk differs from the “market price” by more than 20 basis points, we may use the “market price” provided that we comply with the requirements of the Guidelines.

Investments in other unlisted sukuk will be valued using the Bloomberg Generic Price (“BGN”). In the case where we are unable to obtain quotation from the BGN, such unlisted sukuk will be valued at fair value by reference to the average indicative yield quoted by 3 independent and reputable institutions. If the BGN is not available and we are unable to obtain quotation from 3 independent and reputable institutions, such unlisted sukuk will be valued at fair value as determined in good faith by us, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

Islamic Money Market Instruments

Investments in Islamic commercial papers and Islamic treasury bills are valued each day based on the price quoted by BPA registered with the SC. Where we are of the view that the price quoted by BPA differs from the market price by more than 20 basis points, we may use the market price provided that we:

- (a) record our basis for using a non-BPA price;
- (b) obtain the necessary internal approvals to use the non-BPA price; and
- (c) keep an audit trail of all decisions and basis for adopting the market yield.

For investments in Islamic money market instruments with remaining term to maturity of not more than 90 days at the time of acquisition, such instruments are valued each day based on amortised cost. The risk of using amortised cost method is the mispricing of the Islamic money market instruments. We will monitor the valuation of such Islamic money market instruments using amortised cost method against the market value on a daily basis and will use the market value if the difference in valuation exceeds 3%.

Islamic Deposits

Islamic deposits placed with financial institutions are valued each day by reference to the value of such investments and the profits accrued thereon for the relevant period.

Unlisted Islamic Collective Investment Schemes

Investment in unlisted Islamic collective investment schemes will be valued based on the last published repurchase price.

Islamic Derivatives

Islamic derivative positions will be valued daily at fair value, as determined in good faith by us based on methods or bases which have been verified by the auditor and approved by the Trustee.

Foreign Exchange Translation

All the foreign assets of the Fund are translated on a daily basis to the base currency of the Fund, USD, using the bid foreign exchange rate quoted by either Reuters or Bloomberg, at United Kingdom time 4.00 p.m. which is equivalent to 11.00 p.m. or 12.00 midnight (Malaysia time) on the same day, or such other time as prescribed from time to time by the Federation of Investment Managers Malaysia or any relevant laws.

Any other Shariah-compliant investments

Fair value as determined in good faith by us or the External Investment Manager, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

5.2 Valuation Point

The Fund is valued once every Business Day after the close of the market in which the portfolio of the Fund is invested for the relevant day but not later than the end of next Business Day.

As such, the daily price of the Fund for a particular Business Day will not be published on the next Business Day but will instead be published 2 Business Days later (i.e., the price will be 2 days old).

[^]Multi-class ratio is apportioned based on the size of the Class relative to the whole Fund. This means the multi-class ratio is calculated by taking the value of a Class for a particular day and dividing it with the value of the Fund for that same day. This apportionment is expressed as a ratio and calculated as a percentage.

The NAV per Unit of a Class is calculated by dividing the NAV of the Fund attributable to the Class by the number of Units in circulation of that Class at the end of each Business Day.

Assuming there are 289,000,000 Units of the Fund in circulation at the point of valuation, the NAV per Unit of a Class shall therefore be calculated as follows:

	Fund (USD)	MYR Class (USD)	MYR (Hedged) Class (USD)	MYR (Hedged) (Institutional) Class (USD)	MYR (Institutional) (Distribution) Class (USD)	USD Class (USD)	USD (Institutional) (Distribution) Class (USD)	AUD (Hedged) Class (USD)	SGD (Hedged) Class (USD)

5.4 Pricing of Units

Single Pricing Regime

We adopt a **single pricing regime** in calculating your investments into and redemption of Units. This means that all purchases and redemptions are transacted on a single price (i.e. NAV per Unit). You would therefore purchase and redeem Units at NAV per Unit. The Selling Price per Unit and Redemption Price per Unit are based on Forward Pricing.

Selling Price of Units

The Selling Price of a Unit of a Class of the Fund is the NAV per Unit at the next valuation point after the request to purchase Units is received by us (Forward Pricing). The sales charge applicable to the Class is payable by you in addition to the Selling Price for the Units purchased.

Calculation of Selling Price

Illustration - Sale of Units

Example:

If you wish to invest RM10,000.00 in MYR Class before 4.00 p.m. on any Business Day, and if the sales charge is 5.00% of the NAV per Unit, the total amount to be paid by you and the number of Units issued to you will be as follows:

Sales charge incurred	$= \frac{\text{Investment Amount}}{1 + \text{sales charge (\%)}} \times \text{sales charge (\%)}$ $= \frac{\text{RM10,000}}{1 + 5.00\%} \times 5.00\%$ $= \text{RM476.19}$
Net investment amount	Investment Amount - sales charge RM10,000 - RM476.19 RM9,523.81
Units credited to investor	= Net investment amount / NAV per Unit = RM9,523.81 / RM1.000 = 9,523.81 Units

You are advised not to make payment in cash when purchasing Units of the Fund via any individual agent.

Redemption Price of Units

The Redemption Price of a Unit of a Class of the Fund is the NAV per Unit at the next valuation point after the redemption request is received by us (Forward Pricing).

Calculation of Redemption Price

Illustration - Redemption of Units

Example:

If you wish to redeem 10,000.00 Units from MYR Class before 4.00 p.m. on any Business Day, and if no redemption charge is imposed, the total amount to be paid to you will be as follows:

In the event that the NAV per Unit for MYR Class at the end of the Business Day = RM1.0000

Redemption charge payable by you = 0% x [10,000.00 Units x RM1.000] = RM0.00

The total amount to be paid to you will be:

= the number of Units to be redeemed multiplied with the NAV per Unit less redemption charge.

= [10,000.00 Units x RM1.0000] - RM0.00

= **RM10,000.00**

Therefore, you will receive **RM10,000.00** as redemption proceeds.

5.5 Incorrect Pricing

We shall ensure that the Fund and the Units of the Class are correctly valued and priced according to the Deed and all relevant laws. Where there is an error in the valuation and pricing of the Fund and/or Units, any incorrect valuation and pricing of the Fund and/or Units which is deemed to be significant will involve the reimbursement of money in the following manner:

(i) by us to the Fund; or

(ii) by the Fund to you and/or the former Unit Holders.

However, reimbursement of money shall only apply if the error is at or above the significant threshold of 0.5% of the NAV per Unit and the amount to be reimbursed is RM10.00 (in the case of a foreign currency Class, 10.00 denominated in the currency denomination of the foreign currency Class) or more.

For partial redemption, the minimum redemption amount for each Class is as set out below:

	MYR Class	MYR (Hedged) Class	MYR (Hedged) (Institutional) (Distribution) Class	MYR (Institutional) (Distribution) Class	USD Class	USD (Institutional) (Distribution) Class	AUD (Hedged) Class	SGD (Hedged) Class

5.9 Suspension of Dealing in Units

We may, in consultation with the Trustee and having considered the interests of the Unit Holders, suspend the dealing in Units due to exceptional circumstances, where there is good and sufficient reason to do so (e.g. where the market value or fair value of a material portion of the Fund's assets cannot be determined).

We will cease the suspension as soon as practicable after the aforesaid circumstances has ceased, and in any event within 21 days of commencement of suspension. The period of suspension may be extended if we satisfy the Trustee that it is in the best interest of Unit Holders for the dealing in Units to remain suspended. Such suspension will be subject to weekly review by the Trustee.

Any redemption request received by us during the suspension period will only be accepted and processed on the next Business Day after the cessation of suspension of the Fund. In such cases, Unit Holders will be compelled to remain invested in the Fund for a longer period of time than the stipulated redemption timeline. Hence, their investments will continue to be subjected to the risk factors inherent to the Fund.

Where such suspension is triggered, we will inform all Unit Holders in a timely and appropriate manner of its decision to suspend the dealing in Units.

5.10 Transfer of Units

Transfer of ownership of Units is allowed for this Fund.

Transfer of ownership from the account of the deceased Unit Holder to his/her personal representative will only be undertaken through the process of estate administration and death claims procedures.

5.11 Switching

You are permitted to switch from and to other funds managed by us provided that both funds are denominated in the same currency. Switching is treated as a withdrawal from 1 fund and an investment into another fund. Switching will be made at the prevailing NAV per Unit of the Class to be switched from on a Business Day when the switching request is received and accepted by us, subject to the availability and any terms and conditions imposed by the intended fund to be switched to, if any.

There is no restriction on the minimum number of Units for a switch or the frequency of switching. However, you must meet the minimum Units for redemption and the minimum Unit holdings (after the switch) of the Class that you intend to switch from unless you are redeeming all your investments from the Class.

If you switch from a fund with a lower sales charge to a fund with a higher sales charge, you need to pay the difference in sales charge between the sales charges of these 2 funds in addition to the switching fee. If you switch from a fund with higher sales charge to a fund with a lower sales charge, you do not need to pay the difference in sales charge between these funds.

For example:-

Scenario 1

If you invest in a fund with no sales charge and now wish to switch to another fund which has a sales charge of 1.00% on the net asset value per unit, you will be charged the difference in sales charge of 1.00% on the net asset value per unit of the fund being switched into in addition to the switching fee of the fund you switched from.

Scenario 2

If you invest in a fund with a sales charge of 1.00% on the net asset value per unit and now wish to switch to another fund which has no sales charge, you will not be charged any sales charge.

Any switching request made **on or before the cut off time of 4.00 p.m.** will be made at the NAV per Unit of the Class to be switched from when the switching request is received and accepted by us on a Business Day, subject to availability and any terms and conditions imposed by the intended fund, if any.

Any switching request received or deemed to have been received after this cut-off time would be considered as being transacted on the following Business Day.

We reserve the rights to vary the terms and conditions for switching from time to time, which shall be communicated to you in writing.

Switching from an Islamic fund to a conventional fund is discouraged especially for Muslim Unit Holders.

Note: Our distributors may set an earlier cut-off time for receiving applications in respect of any switching of Units. Please check with the respective distributors for their respective cut-off time.

5.12 Dealing Cut-Off Time for Investment and Redemption of Units

The dealing cut-off time is at **4.00 p.m.** on a Business Day.

Any investment application received via e-mail notification (or by fax, if e-mail is down) by us as well as cleared funds (unless any prior arrangement is made with us) received on or before the cut-off time on a Business Day will be processed on the same Business Day based on the Forward Pricing of the Fund.

Any application received after the cut-off time on a Business Day will be treated as having been received on the next Business Day and will be processed on the next Business Day based on the next Forward Pricing of the Fund.

The above is in accordance with the standards issued by FIMM on the dealing cut-off time.

Note: With effect from 1 March 2023, the refund pursuant to a Unit Holder’s exercise of cooling-off right will be as mentioned above. Prior to 1 March 2023, the refund would be based on the NAV per Unit on the day the Units were first purchased and the sales charge originally imposed on the day the Units were purchased.

Note: With effect from 1 March 2023, the cooling-off proceeds will be refunded to you within 7 Business Days. Prior to 1 March 2023, the cooling-off proceeds would be refunded within 10 days.

You are advised not to make payment in cash when purchasing Units of the Fund via any individual agent.

- (2) *If you are investing in the Fund through our distributors, you will be subject to the applicable mode of distribution (i.e., cash payment or reinvestment or both) which has been chosen by our distributors. Please check with the respective distributors for the mode of distribution available to you.*

However, for MYR (Hedged) (Institutional) (Distribution) Class, MYR (Institutional) (Distribution) Class and USD (Institutional) (Distribution) Class, the mode of distribution available is via cash payment mode only.

Subject to the provisions of any relevant law, the Trustee shall take all reasonable steps to remove the Manager:

- (a) if the Manager has failed or neglected to carry out its duties to the satisfaction of the Trustee and the Trustee considers that it would be in the interest of the Unit Holders for the Trustee to do so after the Trustee has given notice to the Manager of that opinion and the reasons for that opinion, and has considered any representations made by the Manager in respect of that opinion and after consultation with the relevant authorities and with the approval of the Unit Holders by way of a special resolution;
- (b) unless expressly directed otherwise by the relevant authorities, if the Manager is in breach of any of its obligations or duties under the Deed or the relevant laws, or has ceased to be eligible to be a management company under the relevant laws; or
- (c) the Manager has gone into liquidation except for the purpose of amalgamation or reconstruction or some similar purpose, or has had a receiver appointed or has ceased to carry on business.

If any of the events set out above occurs, the Manager shall upon receipt of a written notice from the Trustee cease to be the management company of the Fund. The Trustee shall, at the same time, in writing appoint some other corporation already approved by the relevant authorities to be the management company of the Fund; such corporation shall have entered into such deed or deeds as the Trustee may consider to be necessary or desirable to secure the due performance of its duties as management company for the Fund.

9.6 Retirement, Removal and Replacement of the Trustee

The Trustee may retire upon giving three (3) months' notice to the Manager of its desire so to do or such other shorter period as the Manager and the Trustee shall agree, and may by deed appoint in its stead a new trustee approved by the relevant authorities and under any relevant law.

The Trustee may be removed and another trustee may be appointed by special resolution of the Unit Holders at a Unit Holders' meeting convened in accordance with the Deed or as stipulated in the CMSA.

The Manager shall take all reasonable steps to replace the Trustee as soon as practicable after becoming aware that:

- (e) a receiver has been appointed over the whole or a substantial part of the assets or undertaking of the Trustee and has not ceased to act under the appointment;

- (f) a petition is presented for the winding up of the Trustee (other than for the purpose of and followed by a reconstruction, unless during or following such reconstruction the Trustee becomes or is declared to be insolvent); or
- (g) the Trustee is under investigation for conduct that contravenes the Trust Companies Act 1949, the Trustee Act 1949, the Companies Act 2016 or any relevant law.

9.7 Termination of the Fund

Termination of the Fund

The Fund may be terminated or wound up should the following occur:-

- (a) the authorisation of the Fund has been revoked by the SC; or
- (b) a special resolution is passed at a Unit Holders' meeting to terminate or wind up the Fund.

Termination of a Class

The Manager may terminate a particular Class via the passing of a special resolution by the Unit Holders of such Class at a meeting of such Unit Holders, and subject to and in accordance with the relevant laws. The Manager may only terminate a particular Class if the termination of that Class does not prejudice the interests of Unit Holders of any other Class. For the avoidance of doubt, the termination of a Class shall not affect the continuity of any other Class of the Fund.

Procedures for termination of the Fund

Upon the termination of the Fund, the Trustee shall:

- (a) sell all the Fund's assets then remaining in its hands and pay out of the Fund any liabilities of the Fund; such sale and payment shall be carried out and completed in such manner and within such period as the Trustee considers to be in the best interests of the Unit Holders;
- (b) from time to time distribute to the Unit Holders, in proportion to the number of Units held by them respectively:
 - (1) the net cash proceeds available for the purpose of such distribution and derived from the sale of the Fund's assets less any payments for liabilities of the Fund; and
 - (2) any available cash produce,

provided always that the Trustee shall not be bound, except in the case of final distribution, to distribute any of the moneys for the time being in his hands the amount of which is insufficient for payment to the Unit Holders of RM0.50 or its equivalent currency denomination of the Class, if applicable, in respect of each Unit and provided also that the Trustee shall be entitled to retain out of any such moneys in his hands full provision for all costs, charges, taxes, expenses, claims and demands incurred, made or anticipated by the Trustee in connection with or arising out of the winding-up of the Fund and, out of the moneys so retained, to be indemnified against any such costs, charges, taxes, expenses, claims and demands; each of such distribution shall be made only against the production of such evidence as the Trustee may require of the title of the Unit Holder relating to the Units in respect of which the distribution is made; and

- (c) in relation to any monies held by the Trustee that remains unclaimed after twelve (12) months, transfer such monies to the Registrar of Unclaimed Moneys, in accordance with the requirements of the Unclaimed Moneys Act 1965.

In the event of the Fund being terminated:

- (a) the Trustee shall be at liberty to call upon the Manager to grant the Trustee, and the Manager shall so grant, a full and complete release from the Deed;
- (b) the Manager and the Trustee shall notify the relevant authorities in such manner as may be prescribed by any relevant law; and
- (c) the Manager or the Trustee shall notify the Unit Holders in such manner as may be prescribed by any relevant law.

If at a meeting of Unit Holders of a particular Class to terminate such Class, a Special Resolution to terminate the Class is passed by the Unit Holders:

- (a) the Trustee shall cease to create Units of that Class;
- (b) the Manager shall cease to deal in Units of that Class;
- (c) the Trustee and the Manager shall notify the relevant authorities in writing of the passing of the Special Resolution; and
- (d) the Trustee or the Manager shall as soon as practicable inform all Unit Holders of the Fund of the termination of that Class.

9.8 Unit Holders' Meeting

A Unit Holders' meeting may be called by the Manager, Trustee or Unit Holders. Any such meeting must be convened in accordance with the Deed and/or the Guidelines.

Every question arising at any meeting shall be decided in the first instance by a show of hands unless a poll is demanded or, if it be a question which under the Deed requires a special resolution, a poll shall be taken. On a show of hands every Unit Holder who is present in person or by proxy shall have 1 vote notwithstanding that a Unit Holder may hold Units in different Class in the Fund. Upon a poll, the votes by every Unit Holder present in person or by proxy shall be proportionate to the value of Units held by him.

Quorum

- (a) The quorum required for a meeting of the Unit Holders of the Fund or a Class, as the case may be, shall be 5 Unit Holders, whether present in person or by proxy; however, if the Fund or a Class, as the case may be, has 5 or less Unit Holders, the quorum required for a meeting of the Unit Holders of the Fund or a Class, as the case may be, shall be 2 Unit Holders, whether present in person or by proxy.
- (b) If the meeting has been convened for the purpose of voting on a special resolution, the Unit Holders present in person or by proxy must hold in aggregate at least 25% of the Units in circulation of the Fund or a Class, as the case may be, at the time of the meeting.
- (c) If the Fund or a Class, as the case may be, has only one (1) remaining Unit Holder, such Unit Holder, whether present in person or by proxy, shall constitute the quorum required for the meeting of the Unit Holders of the Fund or a Class, as the case may be.

Policies On Dealing With Conflict Of Interest Situations

We have in place policies and procedures to deal with any conflict of interest situations. In making an investment transaction for the Fund, we will not make improper use of our position in managing the Fund to gain, directly or indirectly, any advantage or to cause detriment to the interests of Unit Holders.

We and our directors including the person(s) or member(s) of a committee undertaking the oversight function of the Fund will at all times act in the best interests of the Unit Holders of the Fund and will not conduct ourselves in any manner that will result in a conflict of interest or potential conflict of interest. In the unlikely event that any conflict of interest arises, such conflict shall be resolved such that the Fund is not disadvantaged. In the unlikely event that we face conflicts in respect of our duties to the Fund and our duties to the other funds that we manage, we are obliged to act in the best interests of all our investors and will seek to resolve any conflicts fairly and in accordance with the Deed and the relevant laws.

Where a conflict or potential conflict of interest situation arises, it will be evaluated by the compliance department and disclosed to our executive director for the next course of action. Conflict of interest situations involving the executive director will be disclosed to our board of directors for a decision on the next course of action. Directors or staffs who are in advisory positions such as portfolio managers or staffs who have access to information on transactions are not allowed to engage in dealings on their own account. The person(s) or members of a committee undertaking the oversight function of the Fund who hold substantial shareholdings or directorships in public companies shall refrain from any decision making if the Fund invests in the particular share or stocks of such companies.

We have formulated policies and adopted certain procedures to prevent conflicts of interest situations.

They include the following:

- (a) the adoption of our policy on ownership of shares and stocks of limited companies by our employees. The policy includes a requirement for all employees to submit a written declaration of their interests in the securities of limited companies;
- (b) prohibition of employees involved in share trading on the stock market, from trading in the open market in their private capacity, except with prior approval of the chief executive officer or compliance officer, or for the purpose of disposing shares in quoted limited companies acquired through sources permitted by us;
- (c) limits set when using brokers, dealers and/or financial institutions for dealings of the investments of the unit trust funds;
- (d) duties for making investment decisions, raising accounting entries and ensuring that payments are properly segregated and carried out by different departments which are headed by separate persons;
- (e) investment procedures, authorised signatories and authorised limits are properly documented in our standard operating procedures;
- (f) holding meetings with the Trustee on a case to case basis to discuss issues related to the management of the unit trust fund, including conflict of interest situations; and
- (g) a proper segregation of duties to prevent conflict of interest situations.

In addition, a periodic declaration of securities trading is required from all employees and our executive director, to ensure that there is no potential conflict of interest between the employees' securities trading and the execution of the employees' duties to us and our customers. We have also appointed a senior compliance officer whose duties include

monitoring and resolving conflict of interest situations in relation to unit trust funds managed and administered by us.

As at the LPD, we are not aware of any existing or potential conflict of interest situations which may arise.

SCBMB Trustee Berhad

While the Trustee has internal policies intended to prevent or manage conflicts of interests, no assurance is given that their application will necessarily prevent or mitigate conflicts of interests. The Trustee's commitment to act in the best interests of the Unit Holders of the Fund does not preclude the possibility of related party transactions or conflicts.

Dear Sirs

Taxation of the unit trust fund and unit holders

This letter has been prepared for inclusion in this Replacement Prospectus in connection with the offer of units in the unit trust known as Maybank Global Mixed Assets-I Fund (hereinafter referred to as "the Fund").

The purpose of this letter is to provide prospective unit holders with an overview of the impact of taxation on the Fund and the unit holders.

Taxation of the Fund

The taxation of the Fund is subject to the provisions of the Malaysian Income Tax Act 1967 (MITA), particularly Sections 61 and 63B.

Subject to certain exemptions, the income of the Fund comprising profits and other investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is subject to Malaysian income tax at the rate of 24% with effect from the year of assessment 2016.

Under Section 2(7) of the MITA, any reference to interest shall apply, *mutatis mutandis*, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of *Syariah*.

The Board of Directors
Maybank Asset Management Sdn Bhd

2

The effect of this is that any gains or profits received (hereinafter referred to as “profits”) and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of *Syariah*, will be accorded the same tax treatment as if they were interest.

Tax allowable expenses would comprise expenses falling under Section 33(1) and Section 63B of the MITA. Section 33(1) permits a deduction for expenses that are wholly and exclusively incurred in the production of gross income. In addition, Section 63B allows unit trusts a deduction for a portion of other expenses (referred to as ‘permitted expenses’) not directly related to the production of income, as explained below.

“Permitted expenses” refer to the following expenses incurred by the Fund which are not deductible under Section 33(1) of the MITA:

- the manager's remuneration,
- maintenance of the register of unit holders,
- share registration expenses,
- secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage.

These expenses are given a partial deduction under Section 63B of the MITA, based on the following formula:

$$A \times \frac{B}{4C}$$

- where
- A is the total of the permitted expenses incurred for that basis period;
 - B is gross income consisting of dividend¹, interest and rent chargeable to tax for that basis period; and
 - C is the aggregate of the gross income consisting of dividend¹ and interest (whether such dividend or interest is exempt or not) and rent, and gains made from the realisation of investments (whether chargeable to tax or not) for that basis period,

provided that the amount of deduction to be made shall not be less than 10% of the total permitted expenses incurred for that basis period.

¹ Pursuant to Section 15 of the Finance Act 2011, with effect from the year of assessment 2011, dividend income is deemed to include income distributed by a unit trust which includes distributions from Real Estate Investment Trusts.

Exempt income

The following income of the Fund is exempt from income tax:

- **Malaysian sourced dividends**
All Malaysian-sourced dividends should be exempt from income tax.
- **Malaysian sourced interest**
 - (i) interest from securities or bonds issued or guaranteed by the Government of Malaysia;
 - (ii) interest from debentures or *sukuk*, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission;
 - (iii) interest from Bon Simpanan Malaysia issued by Bank Negara Malaysia;
 - (iv) interest derived from Malaysia and paid or credited by banks licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013²;
 - (v) interest derived from Malaysia and paid or credited by any development financial institution prescribed under the Development Financial Institutions Act 2002²;
 - (vi) interest from *sukuk* originating from Malaysia, other than convertible loan stock, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission or approved by the Labuan Financial Services Authority (LFSA)³; and
 - (vii) interest which is specifically exempted by way of statutory orders or any other specific exemption provided by the Minister.
- **Discount**
Tax exemption is given on discount paid or credited to any unit trust in respect of investments as specified in items (i), (ii) and (iii) above.

² Effective from 1 January 2019, the income tax exemption for a unit trust fund, pursuant to Paragraph 35A, Schedule 6 of the Income Tax Act, 1967 shall not apply to a wholesale fund which is a money market fund.

³ Effective from the year of assessment 2017, the exemption shall not apply to interest paid or credited to a company in the same group or interest paid or credited to a bank licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013; or a development financial institution prescribed under the Development Financial Institutions Act 2002.

Foreign-sourced income

Pursuant to the Finance Act 2021, income derived by a resident person from sources outside Malaysia and received in Malaysia from 1 January 2022 will no longer be exempt from tax.

The Guidelines issued by the Malaysian Inland Revenue Board on 29 September 2022 (amended on 29 December 2022) define the term “received in Malaysia” to mean transferred or brought into Malaysia, either by way of cash⁴ or electronic funds transfer⁵.

Foreign-sourced income (FSI) received in Malaysia during the transitional period from 1 January 2022 to 30 June 2022 will be taxed at 3% of gross. From 1 July 2022 onwards, FSI received in Malaysia will be taxed at the prevailing tax rate(s) of the taxpayer and based on applicable tax rules. Bilateral or unilateral tax credits may be allowed if the same income has suffered foreign tax, and where relevant conditions are met.

Income Tax (Exemption) (No. 6) Order 2022 has been issued to exempt a “qualifying person”⁶ from the payment of income tax in respect of dividend income which is received in Malaysia from outside Malaysia, effective from 1 January 2022 to 31 December 2026. The exemption will however not apply to a person carrying on the business of banking, insurance or sea or air transport. As the definition of “qualifying person” does not include unit trust funds, it would mean that resident unit trust funds would technically not qualify for the exemption, unless there are further updates thereto.

Gains from the realisation of investments

Pursuant to Section 61(1) (b) of the MITA, gains from the realisation of investments will not be treated as income of the Fund and hence, are not subject to income tax. Such gains may be subject to real property gains tax (RPGT) under the Real Property Gains Tax Act 1976 (RPGT Act), if the gains are derived from the disposal of chargeable assets, as defined in the RPGT Act.

⁴ “Cash” in this context is defined as banknotes, coins and cheques.

⁵ “Electronic funds transfer” means bank transfers (e.g., credit or debit transfers), payment cards (debit card, credit card and charge card), electronic money, privately-issued digital assets (e.g., crypto-assets, stablecoins) and central bank digital currency.

⁶ “Qualifying person” in this context means a person resident in Malaysia who is:

- (a) An individual who has dividend income received in Malaysia from outside Malaysia in relation to a partnership business in Malaysia;
- (b) A limited liability partnership which is registered under the Limited Liability Partnerships Act 2012; or
- (c) A company which is incorporated or registered under the Companies Act 2016.

Implementation of Sales and Service Tax (“SST”)

Sales and Service Tax (“SST”) was re-introduced effective 1 September 2018. Sales Tax of 10% (most common rate) or 5% is charged by Malaysian manufacturers of taxable goods or upon importation into Malaysia of such taxable goods, unless specifically exempted under the Sales Tax (Goods Exempted From Tax) Order 2018. Service Tax at the rate of 6% is charged on certain prescribed taxable services performed by taxable persons as stipulated under Service Tax Regulations 2018. The input tax recovery mechanism under the previous GST regime does not apply to SST. Therefore, any SST incurred is not recoverable and will form a cost element for businesses.

Based on the Service Tax Regulations 2018, a unit trust fund is neither regarded as a taxable person nor as providing taxable services and is therefore not liable for SST registration. Where the Fund incurs expenses such as management fees, the management services provided by asset and fund managers who are licensed or registered with Securities Commission Malaysia for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007, are specifically excluded from the scope of Service Tax. As for other fees, such as trustee fees and other administrative charges, these may be subject to 6% service tax provided they fall within the scope of service tax (i.e. are provided by a “taxable person”, who exceeds the required annual threshold (in most cases RM 500,000 per annum) and the services qualify as “taxable services”).

Taxation of unit holders

For Malaysian income tax purposes, unit holders will be taxed on their share of the distributions received from the Fund.

The income of unit holders from their investment in the Fund broadly falls under the following categories:

1. taxable distributions; and
2. non-taxable and exempt distributions.

In addition, unit holders may also realise a gain from the sale of units.

The tax implications of each of the above categories are explained below:

1. Taxable distributions

Distributions received from the Fund will have to be grossed up to take into account the underlying tax paid by the Fund and the unit holder will be taxed on the grossed up amount.

The Board of Directors
Maybank Asset Management Sdn Bhd
20 January 2023

6

Such distributions carry a tax credit, which will be available for set-off against any Malaysian income tax payable by the unit holder. Should the tax deducted at source exceed the tax liability of the unit holder, the excess is refundable to the unit holder.

Please refer to the paragraph below for the income tax rates applicable to the grossed up distributions.

2. Non-taxable and exempt distributions

Tax exempt distributions made out of gains from the realisation of investments and exempt income earned by the Fund will not be subject to Malaysian income tax in the hands of the unit holders.

A retail money market fund is exempted from tax on its interest income derived from Malaysia, pursuant to Paragraph 35A of Schedule 6 of the ITA. Pursuant to the Finance Act 2021, with effect from 1 January 2022, distributions by a retail money market fund from such tax exempt interest income, to a unit holder other than an individual, will no longer be exempt from tax. The distribution to unit holders other than individuals will be subject to withholding tax at 24%. This would be a final tax for non-residents. Malaysian residents are required to include the distributions in their tax returns and claim a credit in respect of the withholding tax suffered. Individuals will continue to be exempt from tax on such distributions.

The Malaysian income tax chargeable on the unit holders would depend on their tax residence status and whether they are individuals, corporations or trust bodies. The relevant income tax rates are as follows:
