## 6. Key Risks

### Specific Risks of the Fund

#### Currency Risk

As the base currency of the Fund is denominated in USD and the currency denomination of the Classes may be denominated in other than USD, the Classes not denominated in USD are exposed to currency risk. Any fluctuation in the exchange rates between USD and the currency denomination of the Class (other than USD Class) will affect the unit holder's investments in those Classes (other than USD Class). The impact of the exchange rate movement between the base currency of the Fund and the currency denomination of the Class (other than USD Class)

may result in a depreciation of the unit holder's holdings as expressed in the base currency of the Fund.

In order to manage currency risk, the Manager may employ currency hedging strategies to fully or partially hedge the foreign currency exposure of the Class other than MYR Class and USD Class. However, every hedge comes with a cost and will be borne by the respective Class.

Currency hedging may reduce the effect of the exchange rate movement for the Class being hedged (other than MYR Class and USD Class) but it does not entirely eliminate currency risk between the Class and the base currency of the Fund. The unhedged portion of the Class will still be affected by the exchange rate movements and it may cause fluctuation of NAV of the Class. You should note that if the exchange rate moves favourably, the Class (other than MYR Class and USD Class) will not benefit from any upside in currency movement due to the hedging strategy. There is no guarantee that the hedging will be successful and mismatches may occur between the currency position of the Fund and the Class being hedged.

#### Country Risk

The investment of the Fund may be affected by risk specific to the country in which it invests in. Such risks include changes in a country's economic, social and political environment. The value of the assets of the Fund may also be affected by uncertainties such as currency repatriation restrictions or other developments in the law or regulations of the country in which the Fund invest in, i.e. Luxembourg, the domicile country of the Target Fund.

#### Concentration Risk

As the Fund invests at least 90% of its NAV in the Target Fund, it is subject to concentration risk as the performance of the Fund would be dependent on the performance of the Target Fund.

#### Investment Adviser Risk

The Fund will invest in the Target Fund managed by a foreign asset management company. This risk refers to the risk associated with BlackRock Investment Management (UK) Limited ("Investment Adviser"), which include:

- i) the risk of non-adherence to the investment objective, strategy and policies of the Target Fund;
- ii) the risk of direct or indirect losses resulting from inadequate or failed operational and administrative processes and systems by the Investment Adviser; and
- iii) the risk that the Target Fund may underperform its benchmark due to poor investment decisions by the Investment Adviser.

#### Default Risk

Default risk relates to the risk that an issuer of a money market instrument either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the money market instruments. This could adversely affect the value of the Fund as 2%-10% of the NAV of the Fund will be invested in liquid assets which include money market instruments.

#### Over-the-counter ("OTC") Counterparty Risk

Should there be a downgrade in the credit rating of the over-the-counter derivatives' counterparty, the Manager will evaluate the situation and reassess the creditworthiness of the counterparty. The Manager will take the necessary steps in the best interest of the Fund.

***Investors are reminded that the risks listed above may not be exhaustive and if necessary, they should consult their adviser(s), e.g. their bankers, lawyers, stockbrokers or independent professional advisers for a better understanding of the risks.***

*For more details, please refer to section 6.1, section 6.2 and section 13.3 in the information memorandum for the general risks and specific risks of investing in the Fund and the risks of the Target Fund.*

*Note: If your investments are made through an institutional unit trust adviser (“Distributor”) which adopts the nominee system of ownership, you would not be deemed to be a unit holder under the deed and as a result, your rights as an investor may be limited. Accordingly, the Manager will only recognise the Distributor as a unit holder of the Fund and the Distributor shall be entitled to all the rights conferred to it under the deed of the Fund.*

## 7. Valuation of Investment

The Fund is valued once every business day after the close of the market in which the portfolio of the Fund is invested for the relevant day but not later than 5.00 p.m. on the next business day. The daily price of the Fund for a particular business day will not be published on the next day but will instead be published the next following day (i.e. the price will be two (2) days old).

The valuation of the Fund will be done in the Fund’s base currency, USD. All expenses, assets and cash denominated in currencies other than USD will be translated into USD for valuation purposes.

Investors will be able to obtain the unit price of the Fund from [www.maybank-am.com.my](http://www.maybank-am.com.my). Alternatively, the Manager’s client servicing personnel can be contacted at 03-2297 7888.

## 8. Exiting from Investment

Submission of Redemption Request	<p>The cut-off time for redemption of units shall be at <b>4.00 p.m.</b> on a business day.</p> <p><i>Note: The Manager’s distributors may set an earlier cut-off time for receiving requests/applications in respect of redemption of units. Please check with the respective distributors for their respective cut-off time.</i></p>
Payment of Redemption Proceeds	<p>Redemption proceeds will be paid to unit holders within fourteen (14) days from the day the redemption request/application is received by the Manager and provided that all documentations are complete and verifiable. Any redemption request/application received or deemed to have been received by the Manager after the cut-off time would be considered as being transacted on the next business day.</p> <p>However, in the event that the redemption requests/applications received by the Manager on a business day constitutes 20% of the Fund’s NAV or exceeds USD500,000 in aggregate in a single business day (whichever is lower), the payment of redemption proceeds will be made to the unit holders within thirty (30) days after the redemption request/application is received by the Manager.</p>
Remittance of Redemption Proceeds	<p>The Manager shall remit the redemption proceeds to the bank account held in the name of the unit holder(s).</p>
